Unit Trust (NURS non-complex) C-Class GBP

Base currency: **GBP**

Domicile: **UK**

FUND AIM

The Fund's objective is to provide a combination of income and growth within a pre-determined risk profile. While this will be the Fund's focus, the Fund will invest in assets that generate income over assets that grow in value so as to pay income to investors. The Fund's potential gains and losses are likely to be limited by the objective to stay within its particular risk profile.

FUND RANGE

The fund is part of a range of risk targeted funds. The risk profile ranges from 1-10 with 1 being the least risky, and 10 being the most. The fund targets risk profile 4. The level of risk in the fund is managed by restricting the types and proportions of the assets it holds. We have selected Distribution Technology ('DT') as our current risk profiler. They are an independent agency who provide risk profiling tools to advisers and fund managers. The Risk and Reward profile scale on page 3 is calculated differently to the DT risk profiles.

WHO IS THIS FUND FOR?

- This fund is primarily designed for investors: who have received advice and had their attitude to risk assessed and matched to the risk profile of this fund but may be appropriate for those investors who have considered the risk profile of this fund with the others in the Multi-Index range; who are looking for growth and income from an investment in bonds, shares in companies, money market instruments, deposits, cash and indirectly to alternative asset classes (such as commodities) and property.
- Although investors can take their money out at any time, this fund may not be appropriate for those who plan to withdraw their money within five years.
- This fund is not designed for investors who cannot afford more than a minimal loss of their investment.
