Manager's Investment Report

Investment Objective and Policy

In line with the updated rules and guidance for the asset management industry published by the Financial Conduct Authority (FCA) in February 2019, we have clarified the Investment Objectives and Policies for our UK regulated funds.

The revised Investment Objective and Policy came into effect on 7 August 2019. The previous and revised Investment Objective and Policy are set out below.

Prior to 7 August 2019

The objective of the Trust is to track the total return of UK Government Securities as represented by the FTSE Actuaries UK Conventional Gilts All Stocks Index after adjustment for management charges and taxation, by investment in a representative sample of stocks.

For the purposes of Efficient Portfolio Management, any of the forms of derivative in the Prospectus may be effected.

From 7 August 2019

The objective of the Trust is to provide a combination of growth and income by tracking the performance of the FTSE Actuaries UK Conventional Gilts All Stocks Index, the "Benchmark Index". This objective is after the deduction of charges and taxation.

The Benchmark Index is comprised of all British Government conventional securities quoted on the London Stock Exchange in accordance with the Index provider's methodology.

The Trust is a Replicating Fund as it seeks to replicate as closely as possible the constituents of the Benchmark Index by holding all, or substantially all, of the assets comprising the Benchmark Index in similar proportions to their weightings in the Benchmark Index. The Trust will have at least 90% exposure to assets that are included in the Benchmark Index.

The Trust may also invest in government or other public bonds issued by the government of the United Kingdom which are reasonably expected to become part of the Benchmark Index in the near future or are an alternative to a constituent of the Benchmark Index and collective investment schemes, including those managed or operated by the Manager or an associate of the Manager as well as money market instruments (such as treasury bills), cash and permitted deposits.

The Trust will not invest in money market instrument or deposits apart from the use of cash and near cash.

The Trust may only use derivatives for Efficient Portfolio Management purposes.

Manager's Investment Report

During the year under review, the bid price of the Trust's I-Class accumulation units rose by 12.45%. FTSE, the Index compiler, calculates the benchmark Index at the end of the business day using closing prices, whereas the Trust is valued using prevailing prices at 12 noon. Therefore, for tracking purposes the Trust has been revalued using closing prices. On this basis over the review year, the Trust performance was 12.52%, compared with the Index performance of 12.55% (Source: Bloomberg), producing a tracking difference of -0.03%.

Past performance is not a guide to future performance.

The value of investments and any income from them may go down as well as up.

The FTSE Actuaries UK Conventional Gilts All Stocks Index is calculated by FTSE International Limited ("FTSE"). FTSE does not sponsor, endorse or promote this product.

Market/Economic Review

Developed market government bond yields fell during the year under review; gilt yields declined across all maturities. The drop in gilt yields during 2019 was primarily due to geopolitical concerns around Brexit and the US-China trade war. This was partially reversed in December, following something of a relaxation in geopolitical tensions and a decisive victory by the Conservative party in the general election, which was perceived as reducing the near-term risk of a 'no deal' Brexit. Yields continued to fall in 2020 across maturities, and experienced significant volatility towards the end of March on account of the impact of the unprecedented spread of the COVID-19 and the drastic measures enforced in an attempt to limit the spread of the virus. As lockdown measures were announced in the UK, gilt yields spiked rapidly, causing a sharp liquidity squeeze. This prompted the Bank of England to act swiftly, implementing monetary policy support with the announcement of £200 billion of bond purchases, followed by a rate cut to 0.1%. This loosened the liquidity bottleneck and helped yields to stabilise somewhat during April and May 2020. Nevertheless, gilt yields across maturities remain significantly lower than one year ago.

Trust Review

All investment activity was prompted either by unit holder investment or redemption, or by changes in the profile of the benchmark.

During the review year there were 99 gilt auctions and four syndications, raising a total of £196.2 billion for government funding. The bonds issued by syndication were taps of the 1.63% Treasury Gilt 2071 for £2.5 billion nominal in February and of the 1.63% Treasury Gilt 2054 for £4.0 billion nominal in September and two new bonds: the 0.50% Treasury Gilt 2061 for £7.0 billion and the 0.38% Treasury Gilt 2030 for an all-time record of £12.0 billion.

Manager's Investment Report continued

Four new bonds were issued by auction. The 0.13% Treasury Gilt 2023 was issued for £4.1 billion nominal in April, and was the subject of two further auctions over the year. The 1.25% Treasury Gilt 2041 was issued for £2.5 billion nominal in January, and was the subject of three further auctions over the year. The 0.63% Treasury Gilt 2025 was issued for £3.4 billion nominal in July, and was the subject of ten further auctions over the year. The 0.88% Treasury Gilt 2029 was issued for £3.2 billion nominal in June, and was the subject of eleven further auctions over the year.

Three bonds were redeemed: the 1.75% Treasury Gilt July 2019, the 4.75% Treasury Gilt September 2019 and the 4.75% Treasury Gilt March 2020. Each auction, syndication and redemption resulted in a change to the constituent weightings of the benchmark Index and required the Trust to be rebalanced in line with the revised Index distribution.

The Trust experienced net positive cash flow during the year. The cash flows were used to adjust the Trust's holdings in such a way so as to ensure the Trust maintained the Index distribution at all times.

Outlook

Central bank programmes have removed stress in money markets and monetary policy is very loose, keeping government bond yields low despite equity and credit markets rallying. Looking ahead, we expect the economic rebound to continue as lockdowns ease and pent-up demand is reflected in economic data. However, even under our most optimistic scenario, economic activity would take until the end of 2021 to fully recover, while some permanent economic scarring remains likely. Depending on valuations in the meantime, this is something that may be more of a concern later in the summer.

Important Note from the Manager

Since January 2020, global financial markets have been affected by the COVID-19 coronavirus. The impact on the Company will take longer to assess; however, the Company has enacted its business continuity plans, with a large number of staff working remotely. Our technology and IT infrastructure supports large scale remote working, with our Investment Management Teams able to work in a 'business as usual' manner. We remain in regular contact with all key suppliers and we continue to monitor this situation closely.

The virus has caused major uncertainty and disruption to businesses and everyday life. Financial markets have reacted sharply to this news, with concerns regarding the economic impact this may have on a global scale. The long-term impact on the global economy and markets will depend upon the overall scale and the duration of the outbreak, as well as on the actions taken by governments and central banks.

Statement of Responsibilities

Statement of the Manager's Responsibilities

The Collective Investment Schemes sourcebook published by the FCA, ("the COLL Rules") require the Manager to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Trust and of the net income and net gains or losses on the property of the Trust for the period.

In preparing the financial statements, the Manager is responsible for:

- selecting suitable accounting policies and then applying them consistently;
- making judgements and estimates that are reasonable and prudent;
- following UK accounting standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland;
- complying with the disclosure requirements of the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Association in May 2014;
- keeping proper accounting records which enable it to demonstrate that the financial statements as prepared comply with the above requirements;
- assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
- using the going concern basis of accounting unless they either intend to liquidate the Trust or to cease operations, or have no realistic alternative but to do so;
- such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; and
- taking reasonable steps for the prevention and detection of fraud and irregularities.

The Manager is responsible for the management of the Trust in accordance with its Trust Deed, the Prospectus and the COLL Rules.

Statement of Responsibilities continued

Statement of the Trustee's Responsibilities

The Depositary in its capacity as Trustee of Legal & General All Stocks Gilt Index Trust must ensure that the Trust is managed in accordance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook ("COLL"), the Financial Services and Markets Act 2000, as amended, (together "the Regulations"), the Trust Deed and Prospectus (together "the Scheme documents") as detailed below.

The Depositary must in the context of its role act honestly, fairly, professionally, independently and in the interests of the Trust and its investors.

The Depositary is responsible for the safekeeping of all custodial assets and maintaining a record of all other assets of the Trust in accordance with the Regulations.

The Depositary must ensure that:

- the Trust's cash flows are properly monitored and that cash of the Trust is booked in cash accounts in accordance with the Regulations;
- the sale, issue, repurchase, redemption and cancellation of units are carried out in accordance with the Regulations;
- the value of units of the Trust are calculated in accordance with the Regulations;
- any consideration relating to transactions in the Trust's assets is remitted to the Trust within the usual time limits;
- the Trust's income is applied in accordance with the Regulations; and
- the instructions of the Authorised Fund Manager ("the AFM"), which is the UCITS Management Company, are carried out (unless they conflict with the Regulations).

Report of the Trustee

Report of the Trustee to the Unitholders of the Legal & General All Stocks Gift Index Trust ("the Trust") for the year ended 25 May 2020

The Depositary also has a duty to take reasonable care to ensure that the Trust is managed in accordance with the Regulations and the Scheme documents of the Trust in relation to the investment and borrowing powers applicable to the Trust.

Having carried out such procedures as we considered necessary to discharge our responsibilities as Depositary of the Trust, it is our opinion, based on the information available to us and the explanations provided, that, in all material respects the Trust, acting through the AFM:

- (i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Trust's units and the application of the Trust's income in accordance with the Regulations and the Scheme documents of the Trust; and
- (ii) has observed the investment and borrowing powers and restrictions applicable to the Trust in accordance with the Regulations and the Scheme documents of the Trust.

Independent Auditor's Report

Independent auditor's report to the Unitholders of Legal & General All Stocks Gilt Index Trust ('the Trust')

Opinion

We have audited the financial statements of the Trust for the year ended 25 May 2020 which comprise the Statement of Total Return, the Statement of Changes in Net Assets Attributable to Unitholders, the Balance Sheet, the Related Notes and Distribution Tables for the Trust and the accounting policies set out on pages 17 to 18.

In our opinion, the financial statements:

- give a true and fair view, in accordance with UK accounting standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland, of the financial position of the Trust as at 25 May 2020 and of the net revenue and the net capital gains on the property of the Trust for the year then ended; and
- have been properly prepared in accordance with the Trust Deed, the Statement of Recommended Practice relating to UK Authorised Funds, and the COLL Rules.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Trust in accordance with, UK ethical requirements including the FRC Ethical Standard.

We have received all the information and explanations which we consider necessary for the purposes of our audit and we believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

The Manager has prepared the financial statements on the going concern basis as they do not intend to liquidate the Trust to cease their operations, and as they have concluded that the Trust's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over their ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

We are required to report to you if we have concluded that the use of the going concern basis of accounting is inappropriate or there is an undisclosed material uncertainty that may cast significant doubt over the use of that basis for a period of at least a year from the date of approval of the financial statements. In our evaluation of the Manager's conclusions, we considered the inherent risks to the Trust's business model and analysed how those risks might affect the Trust's financial resources or ability to continue operations over the going concern period. We have nothing to report in these respects.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the absence of reference to a material uncertainty in this auditor's report is not a guarantee that the Trust will continue in operation.

Independent Auditor's Report continued

Other information

The Manager (Legal & General (Unit Trust Managers) Limited) is responsible for the other information presented in the Annual Manager's Report together with the financial statements. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the other information; and
- in our opinion the information given in Manager's Report for the financial year is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where under the COLL Rules we are required to report to you if, in our opinion:

- proper accounting records for the Trust have not been kept; or
- the financial statements are not in agreement with the accounting records.

Manager's responsibilities

As explained more fully in their statement set out on page 6, the Manager is responsible for: the preparation of financial statements that give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Trust or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

Independent Auditor's Report continued

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Trust's unitholders, as a body, in accordance with Rule 4.5.12 of the Collective Investment Schemes sourcebook ('the COLL Rules') issued by the Financial Conduct Authority under section 247 of the Financial Services and Markets Act 2000. Our audit work has been undertaken so that we might state to the Trust's unitholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Trust and the Trust's unitholders as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the Financial Statements

1. Statement of Compliance

The Financial Statements have been prepared in compliance with UK Financial Reporting Standard 102 (FRS 102) and in accordance with the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Association in May 2014 (2014 SORP).

2. Summary of Significant Accounting Policies

(a) Basis of Preparation

The Financial Statements have been prepared on a going concern basis, under the historical cost convention as modified by the revaluation of certain financial assets and liabilities measured at fair value through profit or loss. In making this assessment, and in response to COVID-19, the Manager has considered, amongst other things, factors such as Trust size, cash flows through the Trust and Trust liquidity.

The principal accounting policies which have been applied consistently are set out below.

(b) Functional and Presentation Currency

The functional and presentation currency of the Trust is Sterling.

(c) Recognition of Revenue

Bond revenue is accounted for on an effective yield basis, calculated with reference to the purchase price. If the Manager believes that future commitments will not be met due to the bond issuer showing signs of financial distress, revenue accruals will be discounted. Any resultant revenue from these issues will then be treated on a receipts basis.

All other revenue is recognised on an accruals basis.

(d) Treatment of Expenses

All expenses (other than those relating to the purchase and sale of investments) are charged against revenue on an accruals basis.

(e) Distribution Policy

The policy is to distribute all available revenue, after deduction of those expenses which are chargeable in calculating the distribution. In order to conduct a controlled dividend flow, interim distributions will be at the Manager's discretion, up to a maximum of the distributable revenue for the period. All remaining revenue is distributed in accordance with the COLL.

50% of the fund management fee is charged to capital and 50% is charged to revenue for the purpose of calculating the distribution. The 50% of the FMF taken to capital increases the amount of the distribution paid, but reduces the capital growth potential of the Trust. Marginal tax relief is not accounted for in determining the distribution.

Distributions which have remained unclaimed by Unitholders for over six years are credited to the capital property of the Trust.

2. Summary of Significant Accounting Policies continued

(f) Basis of Valuation of Investments

All investments are valued at their fair value as at 12 noon on 22 May 2020, being the last working day of the accounting year. The fair value for non-derivative securities is bid market price, excluding any accrued interest.

Where values cannot be readily determined, the securities are valued at the Manager's best assessment of their fair and reasonable value.

(g) Taxation

Provision is made for taxation at current rates on the excess of investment revenue over expenses.

Deferred tax is provided for on all timing differences that have originated but not reversed by the balance sheet date, other than those differences that are regarded as permanent. Any liability to deferred tax is provided for at the average rate of tax expected to apply.

3. Net capital gains

The net capital gains during the year comprise:

12. Financial Instruments and Associated Risks

The investments of a Trust in financial securities and derivatives are subject to normal market fluctuations and other risks inherent in investing in such instruments. Legal & General (Unit Trust Managers) Limited (UTM) is the Authorised Fund Manager and has responsibility for ensuring appropriate risk management processes are implemented for each Unit Trust.

The UTM Board has delegated the risk oversight function to the Fund Manager Oversight Committee (FMOC), a committee of the Legal & General Investment Management (Holdings) Limited (LGIMH) Board that meets monthly. The primary objective of the FMOC is to ensure proper oversight of the investment management activities and associated services performed by LGIM, its delegates and other Fund Managers, under the Investment Management Agreement (IMA), on behalf of UTM in its capacity as Authorised Fund Manager. The committee consists of senior members of LGIMH and members of the UTM Board. Other senior staff members are also in attendance, as required by the agenda.

Each Trust has Investment Guidelines, an Investment Objective and Investment Restrictions, against which the fund manager will operate. These are set out in Schedule 1 of the IMA between LGIM and UTM. The Schedule is maintained by each fund manager, reviewed by the LGIM Operational Risk and Compliance Teams and approved senior members of LGIMH on behalf of the UTM board. The Schedule provides the detail needed to determine the risk profile for each fund. Fund managers are not permitted to invest into any new instruments without first gaining approval from UTM.

The Investment Objective and Policy of this Trust is detailed on page 2.

(a) Market Risk arising from other price risk

Market Risk arises mainly from uncertainty about future prices. It represents the potential loss the Trust may suffer through holding market positions in the face of market movements.

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar instruments traded in the market.

The assets held by the Trust can be seen in the Portfolio Statement starting on page 9. Movements in the prices of these investments result in movements in the performance of the Trust. The Manager adheres to the investment guidelines established in the Trust Deed, the Prospectus, the COLL and the Trust's IOG, and in this way, monitors and controls the exposure to risk from any type of security, sector or issuer.

At 25 May 2020, if the price of the investments held by the Trust increased or decreased by 5%, with all other variables remaining constant, then the net assets attributable to unitholders would increase or decrease by approximately £73,307,495 (25 May 2019: £52,516,911).

Notes to the Financial Statements continued

12. Financial Instruments and Associated Risks continued

(b) Interest Rate Risk

Interest Rate Risk is the risk of movements in the value of financial instruments as a result of fluctuations in interest rates.

The Trust is exposed to interest rate risk through its holdings in debt securities. The market value of debt securities and any floating rate payments from debt securities held (and interest rate swaps) may fluctuate as a result of changes in interest rates. This risk is managed by the active monitoring and adjustment of the investments held by the Trust, in line with the stated investment objective and policy of the Trust.

At 25 May 2020, if interest rates on the Trust increased or decreased by 1 basis point, with all other variables remaining constant, then the net assets attributable to unitholders would increase or decrease by approximately £1,909,886 (25 May 2019: £1,253,112). This represents the Manager's best estimate of a reasonable possible shift in interest rates, having regard to historical volatility of those rates.

The interest rate profile of the Trust's net assets and liabilities at the balance sheet date was:

	Total	Floating	Fixed	No
25/05/20	£'000	rate	rate	interest
		£'000	£'000	£'000

12. Financial Instruments and Associated Risks continued

(c) Foreign Currency Risk

Foreign Currency Risk is the risk of movements in the value of financial instruments as a result of fluctuations in exchange rates. This risk may be managed by the use of forward currency contracts or currency futures as necessary.

At the year end the Trust had no significant exposures to currencies other than Sterling (25 May 2019: same).

Forward currency contracts were not utilised during the current and the preceding year.

(d) Credit Risk

Credit Risk is the risk of suffering financial loss as a result of a counterparty to a financial transaction being unable to fulfil their financial obligations as they fall due.

Bonds or other debt securities involve credit risk to the issuer which may be evidenced by the issuer's credit rating. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated securities.

The Trust's investments in bonds expose it to the default risk of the bond issuer with regards interest payments and principal repayments. At the balance sheet date none of the bonds held by the Trust's had low credit ratings (sub-investment grade).

This risk is managed by appraising the credit profile of financial instruments and issuers in line with the Trust's investment objective and policy.

(e) Liquidity Risk

Liquidity Risk relates to the capacity to meet liabilities as they fall due. The primary source of this risk to the Trust is the liability to Unitholders for any cancellation of units.

This risk is minimised by holding a large proportion of readily realisable assets, cash balances and via access to overdraft facilities.

12. Financial Instruments and Associated Risks continued

(f) Fair Value

The fair value of a financial instrument is the amount for which it could be exchanged between knowledgeable, willing parties in an arm's length transaction. There is no material difference between the value of the financial assets and liabilities, as shown in the financial statements, and their fair value.

The Statement of Recommended Practice for Financial Statements of UK Authorised Funds issued by the Investment Association in May 2014 requires the classification of the Trust's financial instruments held at the year end into a 3 tiered fair value hierarchy. The 3 tiers of the hierarchy and the classification of the Trust's financial instruments as at the balance sheet date were:

25/05/20	Assets	Liabilities
Basis of Valuation	£	£
Level 1 - Quoted Prices	1,466,149,899	—
Level 2 - Observable Market Data	—	—
Level 3 - Unobservable Data	—	—

Level 2 - Observable Market Data	—	—
Level 3 - Unobservable Data	—	—
Total	1,050,338,224	—

Level 1

The unadjusted quoted price in an active market for assets or liabilities that the entity can access at the measurement date.

Level 2

Valuation techniques using observable inputs other than quoted prices within Level 1.

Level 3

Valuation techniques using unobservable inputs.

13. Portfolio transaction costs

As the Trust mainly invests in assets that are not subject to commissions or taxes, there are no transaction costs (25 May 2019: same).

Total purchases for the year: £607,229,139
(25 May 2019: £229,037,972)

Total sales for the year: £317,425,894
(25 May 2019: £120,674,580, including in-specie of £5,244,060)

The average portfolio dealing spread, including the effect of foreign exchange, as at the balance sheet date was 0.07% (25 May 2019: 0.07%).

15. Ultimate controlling party and related party transactions

The Manager is regarded as a related party to the Trust because it provides key management personnel services to the Trust. The ultimate controlling party of the Manager is Legal & General Group Plc. Subsidiaries of Legal & General Group Plc are also considered related parties to the Trust.

Legal & General (Unit Trust Managers) Limited acts as the principal on all the transactions of the units in the Trust. The aggregated monies received through creations or paid on cancellations are disclosed in the statement of change in net assets attributable to unitholders.

Equalisation amounts relating to creations and cancellations of units are shown within note 7. Fees received by the Authorised Fund Manager from the Trust plus any rebates paid by the Authorised Fund Manager to the Trust are shown within notes 3, 4 and 5 as applicable. Any outstanding fees, amounts outstanding on creations or cancellations of units in the Trust, or rebates receivable by the Trust from the Manager are shown within notes 8 and 10 as applicable.

At the year end, the Manager and its associates held 2.07% (2.77% as at 25 May 2019) of the Trust's units in issue.

16. Post balance sheet market movements

As at the close of business on the balance sheet date the Net Asset Value per I-Class accumulation unit was 259.23p. The Net Asset Value per I-Class accumulation unit for the Trust as at 12 noon on 14 July 2020 was 257.50p. This represents a decrease of 0.67% from the year end value.

Distribution Tables

Distribution Tables for the year ended 25 May 2020

Group 1: units purchased prior to a distribution period.

Group 2: units purchased during a distribution period.

Equalisation is the average amount of revenue included in the purchase price of all Group 2 units and is refunded to the holders of these units as a return of capital. As capital it is not liable to Income Tax but must be deducted from the cost of units for Capital Gains Tax purposes.

Trust Information

The Comparative Tables on pages 31 to 41 give the performance of each active unit class in the Trust.

The 'Return after charges' disclosed in the Comparative Tables is calculated as the return after operating charges per unit divided by the opening net asset value per unit. It differs from the Trust's performance disclosed in the Manager's report, which is calculated based on the latest published price.

Risk and Reward Profile (unaudited)

- The Risk and Reward Indicator table demonstrates where the Trust ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is not guaranteed to remain the same and may change over time. It is based on historical data and may not be a reliable indication of the future risk profile of the Trust. The shaded area in the table above shows the Trust's ranking on the Risk and Reward Indicator.
- The Trust is in category four because it invests in company or government bonds which are sensitive to changes in interest rates, inflation and credit. This can be driven by political and economic changes and other significant events and may cause the value to go up and down. Bonds that are closer to their maturity date tend to be more stable in value. Bonds are generally considered to be higher risk investments than cash, but lower risk than company shares.
- Even a trust in the lowest category is not a risk free investment.

* Class F units are available to:

- (i) investors who have received advice from authorised intermediaries, platforms or other distributors in relation to their investment in units in the Trust; and
- (ii) distributors who the Manager reasonably considers will adequately bear the costs of marketing to and acquiring investors at no or limited cost to the Manager, and to whom the Manager has confirmed that such distributor or investor meets the criteria for investment in such units.

** Class C units are available to certain eligible investors who meet the criteria for investment in such units as outlined in the share class policy of the Manager, which is available to investors in the C Class upon request. Where investors in the C Class no longer continue to meet the criteria for investment in such units, further investment in such units may not be permitted.

*** Class L units are only available to other Legal & General funds and/or companies which have entered into an agreement with the Manager or an affiliate of the Manager.

Pricing and Dealing

The prices are published on the internet at www.legalandgeneral.com/investments/funds/prices-and-reports/daily-fund-prices immediately after they become available.

Dealing in units takes place on a forward pricing basis, from 8:30am to 6:00pm, Monday to Friday.

General Information (unaudited) continued

Buying and Selling Units

Units may be bought on any business day from the Manager or through a financial adviser by completing an application form or on the internet at www.legalandgeneral.com. Units may normally be sold back to the Manager on any business day at the bid price calculated at the following valuation point.

ISA Status

This Trust may be held within this tax advantaged savings arrangement. The favourable tax treatment of ISAs may not be maintained. For full written information, please contact your usual financial adviser or ring 0370 050 0955.

Call charges will vary. We may record and monitor calls.

Prospectus and Manager's Reports

Copies of the Prospectus and the most recent annual or interim reports are available free of charge by telephoning 0370 050 0955 or by writing to the Manager.

Do you have difficulty in reading information in print because of a disability? If so, we can help. We are able to produce information for our clients in large print and braille. If you would like to discuss your particular requirements, please contact us on 0370 050 0955.

Information on Tracking Error

The 'Tracking Error' of a Trust is the measure of the volatility of the differences between the return of the Trust and the return of the benchmark Index. It provides an indication of how closely the Trust is tracking the performance of the benchmark Index after considering things such as Trust charges and taxation.

Using monthly returns, over the review year, the annualised Tracking Error of the Trust is 0.04%, whilst over the last three years to the end of May 2020, the annualised Tracking Error of the Trust is 0.04%. These Tracking Errors are within the anticipated Tracking Error levels set out in the Trust's Prospectus of +/-0.25% per annum.

EU Savings Directive

The Trust has been reviewed against the requirements of the Directive 2003/48/EC on Taxation of savings in the form of interest payments (ESD), following the HM Revenue & Customs debt investment reporting guidance notes.

Under the Directive, information is collected about the payment of distributions to residents in certain other countries and is reported to HM Revenue & Customs to be exchanged with Tax authorities in those countries.

The Trust falls within the 25% debt investment reporting threshold. This means that details of all distributions and redemption proceeds paid to non UK investors will be reported by Legal & General (Unit Trust Managers) Limited to HM Revenue & Customs to be exchanged with the relevant Tax authorities.

Remuneration Disclosure

In accordance with the Undertakings for collective investment in transferable securities (UCITs) Directive, often referred to as the UCITs V Directive, the Legal & General All Stocks Gilt Index Trust, as a UCITs Scheme, is required to disclose the aggregate remuneration paid by the UCITs Manager and by the UCITs Scheme to Identified Staff, together with the number of beneficiaries, and, where relevant, performance fees paid by the UCITs Scheme. The aggregate amount of remuneration must be broken down by category of employees or other staff members and be split into fixed and variable remuneration.

The following provides information on the remuneration of persons whose professional activities have a material impact on the management company and the funds managed by it as at 31 December 2019:

As at 31 December 2019, Legal & General Unit Trust Managers Limited (UTM) engaged the services of three employees of Legal & General Investment Management (Holdings) Limited (LGIMH), plus a further one employee of Legal & General Resources (LGR) to act as Directors. In addition, there were a further two Directors during the year that were LGIMH employees that have resigned. In addition, there were three non-executive Directors. UTM also engaged the services of a further 46 LGIMH employees and a further eight L&G Resources (LGR) employees to act in a variety of Controlled Functions, including Chief Compliance Officer, Money Laundering Reporting Officer, Client Asset Oversight, Systems and Controls Functions, Significant Management Functions and Customer Functions. These employees were also engaged by other companies in the L&G Group. The aggregate remuneration received by these individuals, for all their services across the L&G Group, is disclosed in the table above. We have prorated the remuneration figures by the Net Asset Value of the UCITS Funds as a percentage of the total assets under management.

Material Risk Takers

As at 31 December 2019, UTM engaged the services of Legal & General Investment Management's Index Fund Management team, which consists of 25 investment professionals located in our London Office. The team includes a variety of Fund Managers, Analysts and Support Staff, with the Fund Managers empowered to take discretionary investment management decisions on behalf of the Trust. The team is also engaged in managing other Legal & General UTM Funds/Schemes and is also engaged by other companies in the L&G Group. The aggregate remuneration received by the members of the team, for all their services across the L&G Group, is disclosed in the table above. We have prorated the remuneration figures by the Net Asset Value of the UCITS Funds as a percentage of the total assets under management of the Index Fund Management team.

Assessment of Value

We have now published Assessment of Value reports for our funds on legalandgeneral.com and lgim.com.

Significant Changes

Change in Investment Objective and Policy

In line with the updated rules and guidance for the asset management industry published by the Financial Conduct Authority (FCA) in February 2019, we have clarified the Investment Objectives and Policies for our UK regulated funds.

The revised Investment Objective and Policy came into effect on 7 August 2019. The previous and revised Investment Objective and Policy are set out on page 2.

Publication of Short Report Discontinued

With effect from 20 September 2019, the Short Report for this Trust will no longer be issued.

Closure of F Class Units

As of 12 December 2019, the F-Class units were closed to new business. Subsequently, the F distribution class was closed on 27 January 2020.
