

Legal & General Multi-Index 3 Fund

Unit Trust (NURS non-complex) I-Class GBP

FUND AIM

The objective of the fund is to provide a combination of growth and income and to keep the fund within a pre-determined risk profile. The fund will have exposure to company and government bonds, cash, company shares and UK commercial property. The fund will have a strong bias towards company and government bonds. At least 75% of the fund will be invested in other funds. At least 50% of the fund will be invested in Legal & General index-tracker funds.

RISK PROFILE

The fund is part of a range of risk targeted funds. The risk profile ranges from 1-10 with 1 being the least risky, and 10 being the most.

The fund targets risk profile 3. The level of risk in the fund is managed by restricting the types and proportions of the assets it holds.

We have selected Distribution Technology as our current risk profiler. Distribution Technology are an independent agency who provide risk profiling tools to advisers and fund managers.

WHO IS THIS FUND FOR?

- This fund is designed to provide growth and can form a substantial part of a savings portfolio. It is primarily designed for investors who have received advice but may be appropriate for investors who have considered the Multi-Index range and matched their own risk profile to this fund
- Although investors can take their money out at any time, this fund may not be appropriate for those who plan to withdraw their money within five years
- If you do not understand this document we recommend you seek additional information to help you decide if this fund is right for you

RISK PROFILE

The synthetic risk and reward indicator (SRRRI) is based on the historic volatility of the fund's value and it may change in the future.

The fund is in category 3 because the mix of different asset types in which the fund invests has a balancing effect on the rate at which the fund share price moves up and down.

KEY RISKS

- The fund invests directly or indirectly in bonds which are issued by companies or governments. If these companies or governments experience financial difficulty, they may be unable to pay back some or all of the interest, original investment or other payments that they owe. If this happens, the value of the fund may fall.
- By investing in other funds this fund indirectly holds bonds and property that are traded through agents, brokers or investment banks or directly between buyers and sellers. This makes them less easy to buy and sell than investments traded on an exchange. In exceptional circumstances the fund may not be able to sell its holdings in other funds and may defer withdrawals, or suspend dealing. The Directors can only delay paying out if it is in the interests of all investors and with the permission of the fund depositary.
- The fund could lose money if any institution providing services such as acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the fund.
- Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
- The fund may have underlying investments that are valued in currencies that are different from sterling (British pounds). Exchange rate fluctuations will impact the value of your investment. Currency hedging techniques may be applied to reduce this impact but may not entirely eliminate it.
- Investment returns on bonds are sensitive to trends in interest rate movements. Such changes will affect the value of your investment.
