FUND MANAGER COMMENTARY

The aggressive sell-off for risk assets in March resulted in heavy falls for equity markets. We've seen global demand collapse and supply shock, which drove a 10-day halving of oil prices. Through the month, we saw an increasing number of corporates cutting dividends and suspending buybacks amid a growing cash preservation stance.

Turning to UK equity market performance, all sectors reported varying degrees of negative returns as equities de-rated sharply. Healthcare, Utilities and Consumer Goods sectors were relative outperformers, highlighting the defensive tilt of investors. Meanwhile, cyclicals and rate-sensitive sectors were the laggards. By size, Mid and Small-caps underperformed Large-cap companies. At the factor level, Value lagged Quality and Growth styles. As we approach the Q1 earnings season we appear set for downgrades, given still high expectations from analysts, however we think these are widely anticipated by investors.

The L&G UK Special Situations fund reported a disappointing negative return of -24.8% in March. Relative underperformance against the benchmark was predominantly driven by stock selection, with notable weakness in Consumer Goods, Financials and Consumer Services. The fund's underweight allocation to Healthcare has also been unhelpful. By company, Carnival, Taylor Wimpey, Cineworld, Gym Group and Hyve Group were the biggest detractors. Broadly, our UK domestic exposure endured a difficult month. We did however, see positive contributions from Huntsworth, Tesco and Yellow Cake. On trading activity, we took advantage of recent share price weakness to add consumer names SSP Group, Next and Hollywood Bowl to the portfolio. We exited Hunting and Huntsworth.

KEY RISKS

- The value of an investment and any income taken from it is not guaranteed and can go down as well as up; you may not get back the amount you originally invested.
- The return from this fund is dependent on relatively few individual investments. This means that a fall in the value of an individual investment can have a major impact on the overall performance of the fund.
- The fund could lose money if any institution providing services such as acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the fund.
- Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
- The fund may have underlying investments that are valued in currencies that are different from sterling (British pounds). Exchange rate fluctuations will impact the value of your investment. Currency hedging techniques may be applied to reduce this impact but may not entirely eliminate it.
