Legal & General UK Smaller Companies Trust E Class Distribution ISIN: GB0005122824

This fund is managed by Legal & General (Unit Trust Managers) Limited.

OBJECTIVE AND INVESTMENT POLICY

Important note: on 15 December 2017 this unit class E will close and E class customers will move into unit class R of this fund. For information about unit class R, please contact us. Our contact details are in the Practical Information section overleaf.

Objective

The objective of this fund is to provide growth.

Investment policy:

- The fund will typically invest between 90% and 100% in company shares.
- The fund will invest in UK company shares from all economic sectors. Between 70% and 100% of these shares will be issued by smaller UK companies that make up the lowest 10% by size of the main UK share markets.
- The fund may use derivatives (contracts which have a value linked to the price of another asset) to:
 - reduce risk or cost; or
 - generate additional capital or income with no, or an acceptably low, level of risk.

- The fund may also invest in cash or deposits.

Other information:

- If you hold distribution units, income from investments held by the fund will be paid out to you (as a dividend). This will reduce your capital growth accordingly.
- You can buy or sell units in this fund on any working day. You need to contact us with your instruction before 12 noon. This is the time we calculate unit prices for this fund. If you contact us after 12 noon, the units will be bought or sold at the next working day's price.
- This fund is designed for investors looking to grow their money in an investment which can form part of their existing savings portfolio.
- Although investors can take their money out at any time, this fund may not be appropriate for those who plan to withdraw their money within five years.
- If you do not understand this document we recommend you seek additional information to help you decide if this fund is right for you.

RISK AND REWARD PROFILE

Lower risk ← Higher risk
Potentially lower rewards ← Potentially higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- This risk and reward indicator is based on historical data which may not be a reliable indication of the fund's risk and reward category in the future.
- The category is based on the rate at which the value of the fund has moved up and down in the past.
- This fund is in category 5 because it invests in company shares which generally provide higher rewards and higher risks than other investments such as bonds, cash or commercial property.
- The fund's category is not guaranteed to remain the same and may change over time.
- Even a fund in the lowest category is not a risk free investment.
- The value of your investment and any income you take from it may fall as well as rise and is not guaranteed. You might get back less than you invest.

The risk and reward indicator may not take account of the following risks of investing in the fund:

- The fund invests in smaller companies. Investments in smaller companies tend to be riskier than investments in larger companies because they can:
 - be harder to buy and sell; or
 - go up and down in value more often and by larger amounts, especially in the short term.
- The fund could lose money if any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the fund.
- Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
- The fund may have underlying investments that are valued in currencies that are different from Sterling (British Pounds). Any such investments will be impacted by exchange rate fluctuations and this may affect the value of your investment and any income from it. Currency hedging techniques may have been applied to reduce the impact of exchange rate fluctuations but may not entirely eliminate it.
- If you use your right to cancel your investment, you may not get a full refund if the value of your investment falls before we carry out your instruction.

CHARGES FOR THIS FUND

The charges you pay are used to pay the costs of running the fund, including the costs of marketing, distribution and investment research. These charges reduce the potential return from your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%*
Exit charge	0.00%*
This is the maximum that might be taken out of your money before it is invested.	
*The fund also incurs a unit price spread. See opposite.	
Charges taken from the fund over a year	
Ongoing charges	1.77%
Charges taken from the fund under certain specific conditions	
Performance fee	None

- The entry and exit charges shown are maximum figures. In some cases (including when switching to other funds managed by us) you might pay less - you can find out the actual figures from us or your financial adviser.
- The ongoing charges figure is based on the latest available expenses at December 2016. This figure may change in the future.
- This fund's ongoing charges include any charges made by any other funds it may invest in.

Other costs:

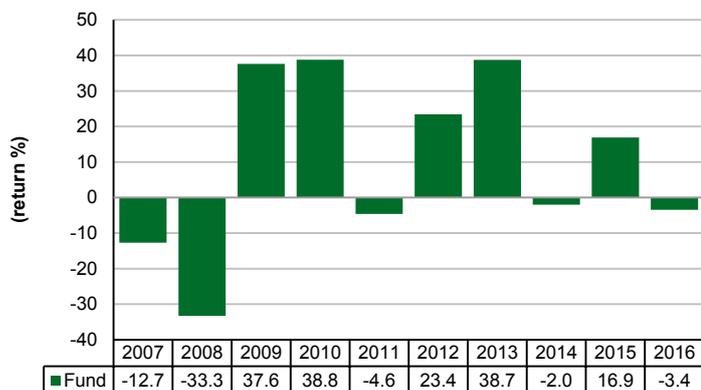

- **Unit price spread:** each day there are two prices for this fund: a higher price you pay to buy units and a lower price you receive when you sell units. The fund manager sets these prices. The difference between these prices is called the 'spread'.

The spread is separate to the entry, exit and ongoing charges shown in this section.

This fund's spread reflects the difference between the buying and selling prices of the assets it holds and costs associated with buying and selling the assets. The spread can change at any time and by any amount. As an example, the buying price for units in this fund was 1.61% higher than the selling price at 31 December 2016.

- For more information about charges and costs, please see the charges and expenses section in the fund's Prospectus, or visit our website at legalandgeneral.com/chargesandfees.

PAST PERFORMANCE

- Past performance is not a guide to future performance.
- The figures take into account all charges except any entry charge, and assume income (after any tax) is reinvested. The performance has been calculated in Sterling (British Pounds).
- The annual return is for a 12 month period ending 31 December.
- The fund launched in 1985.
- This unit class launched in 1985.
