

Legal & General Global 100 Index Trust

Unit Trust (UCITS compliant) I-Class GBP

FUND AIM

The objective of this fund is to provide growth by tracking the performance of the S&P Global 100 Index, converted into Sterling.

RISK AND REWARD PROFILE

The synthetic risk and reward indicator (SRRI) is based on the historic volatility of the fund's value and it may change in the future.

The fund is in category 5 because it invests in company shares which are sensitive to variations in the stock market. The value of company shares can change substantially over short periods of time.

For more information, please refer to the Key Risks section on page 3.

WHO IS THIS FUND FOR?

- This fund is designed for investors looking for growth from an investment in company shares from global stock markets.
- Although investors can take their money out at any time, this fund may not be appropriate for those who plan to withdraw their money within five years.
- This fund is not designed for investors who cannot afford more than a minimal loss of their investment.
- If you do not understand this document we recommend you seek additional information to help you decide if this fund is right for you.

Performance for the I Inc unit class in GBP, launched on 26 August 2005. Source: Lipper. Performance assumes all fund charges have been taken and that all income generated by the investments, after deduction of tax, remains in the fund.

Please note, the benchmark is priced at the close whereas the fund is priced earlier. This can lead to artificially high tracking difference stated on the factsheet. Please see overleaf for gross tracking difference with both fund and index on a closed-price basis.

Past performance is not a guide to the future.

INDEX TRACKING

The Fund aims to provide exposure to stock market investment but without all the risk attached to individual stock selection. This produces low tracking error and limited stock picking or 'style' risks. The Fund takes a pragmatic approach to trading on index changes and cash flow and has lower management fees than active funds. This Fund is based on the S&P Global 100 Index.

TRACKING ERROR (%)

3 years	4 years	5 years	7 years	10 years	Launch
-0.01	0.00	0.00	0.00	0.00	-0.10

The tracking error figures shown are calculated using gross of fee returns based on LGIM's internally calculated valuations. The gross of fee performance figures are calculated on a total return basis and have been adjusted to exclude the impact of uninvested cash balances within the income and revenue account. The gross performance numbers are an indication of fund manager skill and are not reflective of true fund performance. True fund performance priced at official valuation points are calculated by Lipper and available above. Please note that on occasion, difference in the treatment of withholding tax between fund and benchmark can be significant and lead to the appearance of heightened relative returns on overseas equity funds. The fund launched on 04 November 2002.

INDEX FUND MANAGEMENT TEAM

The Index Fund Management team comprises 25 fund managers, supported by two analysts. Management oversight is provided by the Global Head of Index Funds. The team has average industry experience of 15 years, of which seven years has been at LGIM, and is focused on achieving the equally important objectives of close tracking and maximising returns.

KEY RISKS

- The value of an investment and any income taken from it is not guaranteed and can go down as well as up. You may not get back the amount you originally invested.
- The fund could lose money if any institution providing services such as acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the fund.
- Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
- The fund may have underlying investments that are valued in currencies that are different from sterling (British pounds). Exchange rate fluctuations will impact the value of your investment. Currency hedging techniques may be applied to reduce this impact but may not entirely eliminate it.
