

L&G Russell 2000 US Small Cap UCITS ETF

ETF (UCITS compliant) USD Accumulating ETF Class

FUND AIM

The L&G Russell 2000 US Small Cap UCITS ETF (the "ETF") aims to track the performance of the Russell 2000® Index (the "Index"). More information on the Index can be found on page 2 of this document.

RISK AND REWARD PROFILE

This ETF is rated 6 due to the nature of its investments and its risks.

The rating is calculated based on historical data and may not be a reliable indication of the ETF's future risk profile.

The risk category may shift over time.

The lowest category on the above scale does not mean "risk free."

WHO IS THIS FUND FOR?

- This ETF is designed for investors looking to grow their money in an investment which can form part of their existing savings portfolio
- Although investors can take their money out at any time, this ETF may not be appropriate for those who plan to withdraw their money within five years
- If you do not understand the information in this document, the key investor information document or the prospectus, we recommend that you seek additional information or advice to help you decide if this ETF is suitable for you.

INDEX DESCRIPTION

The Index aims to track the performance of a basket of stocks of companies representing the small-cap segment of the U.S. equity universe.

The Index is comprised of the "small capitalisation" segment of publicly traded companies in the United States which is determined by: (1) ranking all of the eligible companies in descending order by reference to the total market value of each company's shares; and (2) selecting the companies ranked from 1,001 to 3,000.

A company is only eligible for inclusion in the Index if: (1) it is of a sufficient size (determined by reference to the total market value of its shares and the proportion that are freely tradable by the public, i.e. not subject to any restrictions or fixed ownership); and (2) its share price exceeds a minimum threshold.

INVESTMENT MANAGER

GO ETF Solutions LLP is the investment manager for each of the exchange traded funds (ETFs) issued by Legal & General UCITS ETF Plc and is responsible for the day-to-day investment management decisions for this ETF. The team is highly experienced with respect to all aspects relating to the management of an ETF portfolio, including collateral management, OTC swap trading, adherence to UCITS regulations and counterparty exposure and monitoring.

KEY RISKS

- The value of an investment and any income taken from it is not guaranteed and can go down as well as up. You may not get back the amount you originally invested.
- An investment in the ETF involves a significant degree of risk. Any decision to invest should be based on the information contained in the relevant prospectus. Prospective investors should obtain their own independent accounting, tax and legal advice and should consult their own professional advisers to ascertain the suitability of the ETF as an investment.
- Market trading in commodity futures contracts can be extremely “volatile”. This means that the prices of the futures contracts comprised in the Index may fluctuate rapidly based on numerous factors, including supply and demand relationships, weather, agriculture, trade, economic or political events, technological developments, interest rates and governmental policies.
- If a swap counterparty is no longer willing or able to continue entering into swaps with the ETF, the ETF will not be able to continue tracking the Index.
- If a swap counterparty increases the cost of entering into swaps with the ETF, the ETF’s performance will be negatively impacted.
- Third party service providers (such as swap counterparties or the ETF’s depository) may go bankrupt and fail to pay money due to the ETF or return property belonging to the ETF.
- If the Index provider stops calculating the Index or if the ETF’s license to track the Index is terminated, the ETF may have to be closed.
- It may not always be possible to buy and sell ETF shares on a stock exchange or at prices closely reflecting the NAV.
- There is no capital guarantee or protection on the value of the ETF. Investors can lose all the capital invested in the ETF.
- Please refer to the “Risk Factors” section of the Issuer’s Prospectus and the Fund Supplement.
