

Legal & General All Stocks Gilt Index Trust

Unit Trust (UCITS compliant) C-Class GBP

FUND AIM

The objective of this fund is to provide a combination of income and growth (if the income is reinvested) by tracking the performance of the FTSE Actuaries UK Conventional Gilts All Stocks Index.

RISK AND REWARD PROFILE

The synthetic risk and reward indicator (SRRI) is based on the historic volatility of the fund's value and it may change in the future.

This fund is in category 4 because it invests in investment grade bonds which generally provide lower rewards and lower risks than other investments such as sub-investment grade bonds or company shares.

For more information, please refer to the Key Risks section on page 3.

WHO IS THIS FUND FOR?

- This fund is designed for investors seeking income from an investment which can form part of their existing savings portfolio
- Although investors can take their money out at any time, this fund may not be appropriate for those who plan to withdraw their money within five years
- If you do not understand this document we recommend you seek additional information to help you decide if this fund is right for you

FUND FACTS

Fund size £1,090.3m	Base currency GBP	Benchmark FTSE Actuaries UK Conventional Gilts All Stocks

Fund	1.72	9.46	0.20	13.06	-
Benchmark	1.83	10.10	0.57	13.86	-

Performance for the C Inc unit class in GBP, launched on 09 December 2013. Source: Lipper. Performance assumes all fund charges have been taken and that all income generated by the investments, after deduction of tax, remains in the fund.

Please note, the benchmark is priced at the close whereas the fund is priced earlier. This can lead to artificially high tracking difference stated on the factsheet. Please see overleaf for gross tracking difference with both fund and index on a closed-price basis.

Past performance is not a guide to future returns. The value of your investment and any income taken from it is not guaranteed and may go up and down.

FUND SNAPSHOT

- Aims to track the return of the FTSE Actuaries UK Conventional Gilts All Stocks Index
- Invests in government bonds issued by the UK government
- Employs a straightforward, low-cost and pragmatic index replication approach

INDEX TRACKING

The team believes that successful index tracking strikes a balance between close matching of the index and the management of trading costs. Using pragmatic replication, all the bonds in the portfolio are held broadly in line with their index weights, ensuring close tracking of the index.

INDEX FUND MANAGEMENT TEAM

The Index Fund Management team comprises 25 fund managers, supported by two analysts. Management oversight is provided by the Global Head of Index Funds. The team has average industry experience of 15 years, of which seven years has been at LGIM, and is focused on achieving the equally important objectives of close tracking and maximising returns.

KEY RISKS

- Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
- Investment returns on bonds are particularly sensitive to trends in interest rate movements. Their values are likely to fall when interest rates rise. Such falls may be more pronounced in a low interest rate environment. Bonds with a longer time to go before their maturity date will fall by more than bonds with a short time to their maturity date.
- Credit ratings assigned to the individual assets in the fund can weaken and cause the value of those assets to fall.
- The fund invests in bonds which are issued by the UK Government. If the UK Government experiences financial difficulty, they may be unable to pay back some or all of the interest, original investment or other payments that they owe. If this happens, the value of your fund may fall.
- This fund has investments that, rather than being traded on an exchange, are traded through agents, brokers or investment banks matching buyers and sellers. This makes the investments less easy to buy and sell than those that are traded on an exchange and on any particular day there may not be a buyer or a seller for the investments. In times of market uncertainty or if an exceptional amount of withdrawals are requested it may become less easy for your fund to sell investments. If this happens, the value of your fund may fall and in extreme circumstances this may also force a delay in buying and selling your investment in the fund, which may mean you have to wait for your money to be invested or returned. The fund can only delay paying out if it is in the interests of all investors and with the permission of the fund trustee or depositary.
- The fund could lose money if any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the fund.
