

# Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## L&G E Fund MSCI China A UCITS ETF

Share Class USD Accumulating ETF - ISIN: IE00BHFDF83. The Fund is a sub-fund of Legal & General UCITS ETF Plc (the "Company").  
Managed by LGIM Managers (Europe) Limited, a member of the Legal & General group (the "Manager")

## OBJECTIVES AND INVESTMENT POLICY

- The L&G E Fund MSCI China A UCITS ETF (the "Fund") is an exchange traded fund ("ETF") that aims to track the performance of the MSCI China A Onshore Index (the "Index").
- Dealing.** Shares in this Share Class (the "Shares") are denominated in USD and can be bought and sold on stock exchanges by ordinary investors using an intermediary (e.g. a stockbroker). In normal circumstances, only Authorised Participants may buy and sell Shares directly with the Company. Authorised Participants may redeem their Shares on demand in accordance with the "Dealing Timetable" published on <http://www.lgimETF.com>.
- Index.** The Index is comprised of "A shares" issued by large and medium-sized companies domiciled in the People's Republic of China (the "PRC") which are publicly traded on the Shanghai and Shenzhen stock exchanges. A company is only eligible for inclusion in the Index if it is of a sufficient size (determined by reference to (1) the total market value of the company and (2) the proportion of its A shares that is deemed to be available for purchase in the public equity markets in the PRC, i.e. not subject to any restrictions or strategic ownership) and if its A shares are sufficiently "liquid" (a measure of how actively they are traded). Within the Index, each company is then weighted according to its relative size.
- Replication.** The Fund will primarily invest in a representative sample of the companies contained in the Index whose risk and performance characteristics closely resemble that of the Index as a whole. The Fund may also invest in (1) companies that are not constituents of the Index that have similar risk and performance characteristics to the companies contained in the Index and (2) financial derivative instruments ("FDIs") (i.e. investments the prices of which are based on the companies contained in the Index and/or such other companies).
- Dividend Policy.** This Share Class does not intend to pay dividends. Any income which may result from the Fund's investments will be re-invested into the Fund.

## RISK AND REWARD PROFILE

- The Fund is rated 6 due to the nature of its investments and its risks. The rating is calculated based on historical data and may not be a reliable indication of the Fund's future risk profile. The risk category may shift over time. The lowest category on the above scale does not mean "risk free".
- The Fund's ability to closely track the Index will be affected by its ability to purchase and/or sell the Index constituents and any legal or regulatory restrictions or disruptions affecting them. Such factors tend to be more prevalent in Chinese stock markets and may also affect the Fund's ability to determine its net asset value ("NAV") and/or lead to the suspension of subscriptions and redemptions of Shares.
- The Fund's ability to closely track the Index will also be affected by transaction costs and taxes incurred when adjusting its investment portfolio generally and/or to mirror any periodic adjustments to the constituents of the Index.
- The Fund's performance may be impacted by any gradual and/or sudden changes to any applicable rules, laws, regulations, economic policies and political environment in China and any governmental intervention in the stock and/or foreign exchange markets which may limit the Fund's ability to invest in A-shares, limit the Fund's ability to repatriate its cash out of China or affect the Fund's rights over its investments.
- Corporate governance and accounting/reporting standards for companies in China are typically lower than developed markets and may affect the value of the Fund's investments.
- The Fund may not be able to procure additional RQFII investment quota to match investor demand for the Fund which may cause subscriptions to be suspended and the Shares to trade at a premium to NAV on stock exchanges.
- The PRC tax authorities do not currently impose capital gains tax ("CGT") on the Fund's investments in A-shares pursuant to a temporary exemption that was implemented on 17 November 2014. However, there is a risk that the PRC tax authorities may at any time (and without notice) revoke the temporary exemption and seek to impose CGT on the Fund's investments which would adversely affect investors at such time.
- Third party service providers (such as counterparties entering into FDIs with the Fund or the Company's depository) may go bankrupt and fail to pay money due to the Fund or return property belonging to the Fund.
- If the Index provider stops calculating the Index or if the Fund's license to track the Index is terminated, the Fund may have to be closed.
- It may not always be possible to buy and sell Shares on a stock exchange or at prices closely reflecting the NAV.
- There is no capital guarantee or protection on the value of the Fund. Investors can lose all the capital invested in the Fund.
- Please refer to the "Risk Factors" section of the Company's Prospectus and the Fund Supplement.

## CHARGES FOR THE FUND

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential return from your investment.
