

L&G Global Small Cap Equity Index Fund

ICAV (UCITS compliant) Z-Class GBP (Unhedged) Acc

FUND AIM

The investment objective of the Fund is to provide investors with a return in line with the performance of the developed world small cap equity market as represented by the MSCI World Small Cap Index (USD).

RISK AND REWARD PROFILE

The synthetic risk and reward indicator (SRRI) is based on the historic volatility of the fund's value and it may change in the future.

The fund is in category 5 because it invests in company shares which are sensitive to variations in the stock market. The value of company shares can change substantially over short periods of time.

For more information, please refer to the Key Risks section on page 3.

WHO IS THIS FUND FOR?

- This fund is designed for investors looking for growth from an investment in company shares from global stock markets
- Although investors can take their money out at any time, this fund may not be appropriate for those who plan to withdraw their money within five years
- This fund is not designed for investors who cannot afford more than a minimal loss of their investment
- If you do not understand this document we recommend you seek additional information to help you decide if this fund is right for you

Celebrating
25+
 Years

INDEX FUND MANAGEMENT TEAM

The Index Fund Management team comprises 25 fund managers, supported by two analysts. Management oversight is provided by the Global Head of Index Funds. The team has average industry experience of 15 years, of which seven years has been at LGIM, and is focused on achieving the equally important objectives of close tracking and maximising returns.

KEY RISKS

- The value of an investment is not guaranteed and can go down as well as up; you may not get back the amount you originally invested.
- The fund invests in smaller companies. Investments in smaller companies tend to be riskier than investments in larger companies because they can: be harder to buy and sell; or go up and down in value more often and by larger amounts, especially in the short term. In times of market uncertainty or if an exceptional amount of withdrawals are requested it may become less easy for your fund to sell investments and the Manager may defer withdrawals, or suspend dealing. The Manager can only delay paying out if it is in the interests of all investors and with the permission of the fund trustee or depository.
- The fund could lose money if any institution providing services such as acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the fund.
- Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
- The fund may have underlying investments that are valued in currencies that are different from the currency of this share class. Exchange rate fluctuations will impact the value of your investment. Currency hedging techniques may be applied to reduce this impact but may not entirely eliminate it.
- We may take some or all of the ongoing charges from the fund's capital rather than the fund's income. This increases the amount of income, but it reduces the growth potential and may lead to a fall in the value of the fund.
