

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Legal & General Cash Trust

Class L Accumulation - ISIN: GB00BYV17T72

The authorised fund manager of the Fund is Legal & General (Unit Trust Managers) Limited.

OBJECTIVES AND INVESTMENT POLICY

- The objective of this Fund is to maintain capital and to provide a return in line with money market rates, before charges.
 - The Fund will generally invest in short term deposits, certificates of deposit, government bonds (predominantly UK) issued in pounds sterling (a type of loan which pays interest) and Repos. Repos are an agreement between two parties to sell or buy an asset and later reverse the trade at an agreed date and price.
 - In stressed market conditions, the Fund may be invested up to 100% in government and public securities issued by a single issuer.
 - The maximum maturity of the instruments the Fund invests in is 397 days but the Fund must maintain a weighted average maturity of less than 60 days.
 - The bonds that the Fund invests in must be investment grade (rated as lower risk). Investment grade bonds are bonds that have achieved a higher credit rating from a rating agency. Credit ratings give an indication of how likely it is that the issuer of a bond will be able to pay back interest and the loan on time.
 - The Fund may use derivatives (contracts which have a value linked to the price of another asset) to:
 - reduce risk or cost; or
 - generate additional capital or income with no, or an acceptably low, level of risk.
 - The Fund may also invest in other fixed income securities, other money market instruments and collective investment schemes.
- Other information:**
- The Fund is actively managed as the Manager uses their expertise to pick investments to achieve the Fund's objective.
 - There is no representative target or constraining benchmark available for this Fund.
 - The Fund is a short-term variable net asset value money market fund.
 - Your units will be accumulation units. Income from the Fund's investments (interest) will be reinvested back into the value of your units.
 - You can buy or sell units in this Fund on any business day. You need to contact us with your instruction before 12 noon. This is the time we calculate unit prices for this Fund. If you contact us after 12 noon, the units will be bought or sold at the next business day's price.
 - The Fund's base currency is denominated in sterling (British pounds).
 - This Fund is designed for investors looking to preserve their money from an investment in deposits and short term instruments.
 - This Fund may be appropriate for investors looking to invest for a short period of time.
 - If you do not understand this document we recommend you seek additional information to help you decide if this Fund is right for you.

RISK AND REWARD PROFILE

Lower risk ← → Higher risk
Potentially lower rewards ← → Potentially higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is not guaranteed to remain the same and may change over time. It is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table above shows the Fund's ranking on the Risk and Reward Indicator.
 - The Fund is in category 1 as it invests in instruments which are very liquid, have short maturities which have a high credit rating and are considered lower risk than longer maturing securities.
 - Even a fund in the lowest category is not a risk free investment.
 - The value of your investment may fall as well as rise and is not guaranteed. You might get back less than you invest.
- Further information on the risks of investing in this fund is contained in the Prospectus available at www.legalandgeneral.com/reports. The risk and reward indicator may not take account of the following risks of investing in the Fund:
- The Fund could lose money if any institutions providing services such as acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the Fund.

- This Fund holds bonds that are traded through agents, brokers or investment banks matching buyers and sellers. This makes the bonds less easy to buy and sell than investments traded on an exchange. In exceptional circumstances the Fund may not be able to sell bonds and may defer withdrawals, or suspend dealing. The Directors can only delay paying out if it is in the interests of all investors and with the permission of the Fund depository.
- The Fund has money on deposit with companies such as banks or other financial institutions and invests in bonds which are issued by the government. If these companies or the government experience financial difficulty, they may be unable to pay back some or all of the interest, original investment or other payments that they owe. If this happens, the value of the Fund may fall.
- Investment returns on bonds are sensitive to trends in interest rate movements. Such changes will affect the value of your investment.
- Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
- When interest rates are low or negative and if the Fund's income is not enough to pay the charges, the Fund's capital will be used instead. This may cause capital erosion and the value of the Fund to fall.
- Where interest rates are negative, you may not receive interest payments and the value of your Fund may decrease.
- We may take some or all of the ongoing charges from the Fund's capital rather than the Fund's income. This increases the amount of income, but it reduces the growth potential and may lead to a fall in the value of the Fund.

CHARGES

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential return from your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested.	
The price for buying and selling units is subject to a Dilution Adjustment See opposite.	
Charges taken from the fund over a year	
Ongoing charge	None
Charges taken from the fund under certain specific conditions	
Performance fee	None

- There are no entry or exit charges.
- The ongoing charges figure is based on the latest available expenses at December 2020. This figure may vary from year to year.
- This Fund's ongoing charges include any charges made by any other funds it may invest in. They exclude portfolio transaction costs.
- The ongoing charges are taken from the income of the Fund.
- The ongoing charge for the L class covers all charges levied within the Fund. However, the Investment Management Fee is negotiated with each investor individually and is invoiced to them outside of the Fund.

Other costs:

- **Dilution Adjustment:** on any day, the prices for buying or selling units in this Fund are the same. The Fund manager calculates a single price for this Fund based on the mid-point between the buying and selling prices of the Fund's assets. In certain circumstances, the Fund manager can adjust this price to account for whether there is more money going into or coming out of the Fund. This is called a 'dilution adjustment'. This can vary but as an example for this Fund we estimate 0.00% for purchases and 0.00% for sales at 28 January 2021. The amount of the dilution adjustment may differ in future.
- For more information about charges and costs, please see the charges and expenses section in the Fund's Prospectus, or visit our website at legalandgeneral.com/chargesandfees.

PAST PERFORMANCE

- Past performance is not a guide to future performance.
- The figures for the Fund take into account the ongoing charges and assume income (after any tax) is reinvested.
- The performance has been calculated in Sterling (British Pounds).
- The annual return is for a 12 month period ending 31 December.
- The Fund launched in 1992.
- This unit class launched in 2016.
- To assess the performance of the Fund, it can be compared to the IA sector, Short Term Money Market (referred to as the "Comparator" in the chart opposite).

PRACTICAL INFORMATION

- The trustee and depositary is Northern Trust Global Services SE, UK Branch.
- You can obtain further information about the Fund including copies of its prospectus and the latest annual and semi-annual reports at www.legalandgeneral.com/reports.
