

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Legal & General All Stocks Gilt Index Trust M Class Accumulation ISIN: GB0002051406

This fund is managed by Legal & General (Unit Trust Managers) Limited.

OBJECTIVE AND INVESTMENT POLICY

Important note: on 24 November 2017 this unit class M will close and M class customers will move into unit class I of this fund. For information about unit class I, please contact us. Our contact details are in the Practical Information section overleaf.

Objective

The objective of this fund is to provide a combination of income and growth (if the income is reinvested) by tracking the performance of the FTSE Actuaries UK Conventional Gilts All Stocks Index.

Investment policy:

- The fund will invest in bonds (a type of loan which pays interest). The fund's investments will closely match those that make up the Index. This Index consists of bonds which are issued by the UK Government (known as gilts).
- The gilts that the fund invests in will be investment grade bonds (rated as lower risk). Investment grade bonds are bonds that have achieved a higher credit rating from a rating agency. Credit ratings give an indication of how likely it is that the issuer of a bond will be able to pay back interest and the loan on time.
- 35% or more of the fund can be invested in bonds issued by the UK Government.

- The fund may use derivatives (contracts which have a value linked to the price of another asset) to:
 - reduce risk or cost; or
 - generate additional capital or income with no, or an acceptably low, level of risk.

Other information:

- If you hold accumulation units, income from investments held by the fund (interest) will be reinvested into the value of your units.
- You can buy or sell units in this fund on any working day. You need to contact us with your instruction before 12 noon. This is the time we calculate unit prices for this fund. If you contact us after 12 noon, the units will be bought or sold at the next working day's price.
- This fund is designed for investors seeking income from an investment which can form part of their existing savings portfolio.
- Although investors can take their money out at any time, this fund may not be appropriate for those who plan to withdraw their money within five years.
- If you do not understand this document we recommend you seek additional information to help you decide if this fund is right for you.

RISK AND REWARD PROFILE

Lower risk ← Higher risk
Potentially lower rewards ← Potentially higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- This risk and reward indicator is based on historical data which may not be a reliable indication of the fund's risk and reward category in the future.
- The category is based on the rate at which the value of the fund has moved up and down in the past.
- This fund is in category 4 because it invests in investment grade bonds which generally provide lower rewards and lower risks than other investments such as sub-investment grade bonds or company shares.
- The fund's category is not guaranteed to remain the same and may change over time.
- Even a fund in the lowest category is not a risk free investment.
- The value of your investment may fall as well as rise and is not guaranteed. You might get back less than you invest.

The risk and reward indicator may not take account of the following risks of investing in the fund:

- This fund holds bonds that, rather than being traded on an exchange, are traded through agents, brokers or investment banks matching buyers and sellers. This makes the bonds less easy to buy and sell than investments that are traded on an exchange and on any particular day there may not be a buyer or a seller for the bonds. In times of market uncertainty or if an exceptional amount of withdrawals are requested it may become less easy for your fund to sell investments. If this happens, the value of your fund may fall.
- Investment returns on bonds are particularly sensitive to trends in interest rate movements. Their values are likely to fall when interest rates rise. Such falls may be more pronounced in a low interest rate environment. Bonds with a longer time to go before their maturity date will fall by more than bonds with a short time to their maturity date.
- Credit ratings assigned to the individual assets in the fund can weaken and cause the value of those assets to fall.
- This fund invests almost exclusively in bonds issued by the UK Government. If the UK Government experiences financial difficulty, it may be unable to pay back some or all of the interest, original investment or other payments that it owes. If this happens, the value of your fund may fall.
- The fund could lose money if any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the fund.
- Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
- We take some of the ongoing charges from the fund's capital rather than the fund's income. This increases the amount of income you may be paid, but it reduces the growth potential and may lead to a fall in the value of the fund.
- If you use your right to cancel your investment, you may not get a full refund if the value of your investment falls before we carry out your instruction.

CHARGES FOR THIS FUND

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential return from your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%*
Exit charge	0.00%*
This is the maximum that might be taken out of your money before it is invested.	
*The fund also incurs a unit price spread. See opposite.	
Charges taken from the fund over a year	
Ongoing charges	0.15%
Charges taken from the fund under certain specific conditions	
Performance fee	None

- The entry and exit charges shown are maximum figures. In some cases (including when switching to other funds managed by us) you might pay less - you can find out the actual figures from us or your financial adviser.
- The ongoing charges figure is based on the latest available expenses at December 2016. This figure may change in the future.
- This fund's ongoing charges include any charges made by any other funds it may invest in.

Other costs:

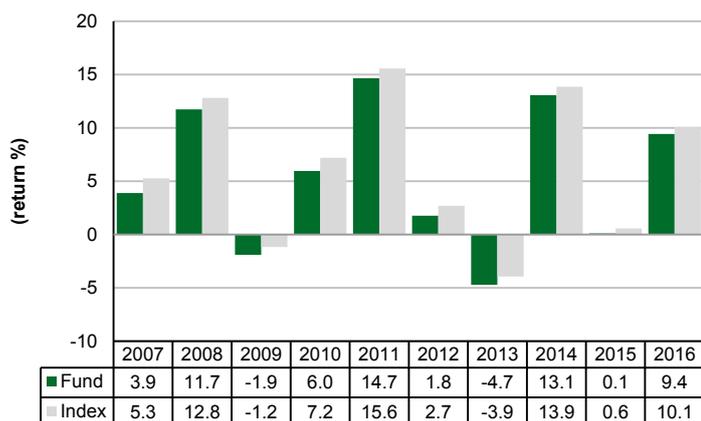

- **Unit price spread:** on any day, the prices for buying or selling units in this fund are the same. However, there are maximum and minimum prices we can charge for units, reflecting the difference between the buying and selling prices of the assets in the fund and costs associated with buying and selling the assets. We can move the price depending on whether money is coming into or leaving the fund. The fund manager sets these prices. From day to day we will move the unit price between these prices as necessary. The difference between the maximum and minimum prices is called the 'spread'.

The spread is separate to the entry, exit and ongoing charges shown in this section.

The spread can change at any time and by any amount. As an example, the maximum price for units in this fund was 0.09% higher than the minimum price at 31 December 2016.

- For more information about charges and costs, please see the charges and expenses section in the fund's Prospectus, or visit our website at legalandgeneral.com/chargesandfees.

PAST PERFORMANCE

- Past performance is not a guide to future performance.
- The figures for the fund take into account all charges except any entry charge, and assume income (after any tax) is reinvested. The performance has been calculated in Sterling (British pounds).
- The fund will not replicate the performance of its benchmark index perfectly. This is because the fund will incur drags on performance such as expenses, tax and transactions costs, which the benchmark index is not subject to.
- The annual return is for a 12 month period ending 31 December.
- The fund launched in 1981.
- This unit class launched in 1981.
- This unit class was renamed M on 19 December 2012.
- The index figures assume gross income is reinvested.

PRACTICAL INFORMATION

- The trustee is Northern Trust Global Services Limited.
- You can find further information about the fund in its Prospectus and latest annual and half-yearly reports at www.legalandgeneral.com/reports. A Guide to Investing with Us at www.legalandgeneral.com/guide gives further information about investing generally. These documents are also available from: Legal & General Investments, PO Box 6080, Wolverhampton WV1 9RB. We will provide documents free of charge and in English.
- You can get other practical information, including the latest buying and selling prices, spreads and details of any other unit classes that are available, by calling us on **0370 050 0955** Monday to Friday between 8.30am and 6.00pm. Call charges will vary. You can also find prices at legalandgeneral.com/utprices and details of how we price units in A Guide to Investing with Us.
- UK tax legislation may have an impact on your personal tax position.
- Legal & General (Unit Trust Managers) Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus for the fund.
- You can find details of our Remuneration Policy at www.lgim.com/remuneration. You can also request a paper copy free of charge. The Policy includes details of our Remuneration Committee and how remuneration and benefits are calculated.
