

Legal & General Global Health & Pharmaceuticals Index Trust

Unit Trust (UCITS compliant) R-Class GBP

FUND AIM

The objective of this fund is to provide growth by tracking the performance of those companies in the FTSE World Index which are engaged in Health, Pharmaceuticals and Biotechnology activities.

RISK AND REWARD PROFILE

The synthetic risk and reward indicator (SRRI) is based on the historic volatility of the fund's value and it may change in the future.

The fund is in category 5 because it invests in company shares which are sensitive to variations in the stock market. The value of company shares can change substantially over short periods of time.

For more information, please refer to the Key Risks section on page 3.

WHO IS THIS FUND FOR?

- This fund is designed for investors looking for growth from an investment in health, pharmaceuticals and biotechnology company shares.
- Although investors can take their money out at any time, this fund may not be appropriate for those who plan to withdraw their money within five years.
- This fund is not designed for investors who cannot afford more than a minimal loss of their investment.
- If you do not understand this document we recommend you seek additional information to help you decide if this fund is right for you.

FUND FACTS

Fund size £461.7m	Base currency GBP	Benchmark FTSE World/Health Care Index

12 MONTH PERFORMANCE TO MOST RECENT QUARTER (%)

12 months to 30 June	2018	2017	2016	2015	2014
Fund	3.87	13.71	11.14	24.65	13.42
Benchmark	5.06	13.18	14.64	27.55	14.38

Performance for the R Inc unit class in GBP, launched on 01 November 2000. Source: Lipper. Performance assumes all fund charges have been taken and that all income generated by the investments, after deduction of tax, remains in the fund.

Please note, the benchmark is priced at the close whereas the fund is priced earlier. This can lead to artificially high tracking difference stated on the factsheet. Please see overleaf for gross tracking difference with both fund and index on a closed-price basis.

Past performance is not a guide to future returns. The value of your investment and any income taken from it is not guaranteed and may go up and down.

FUND SNAPSHOT

- Aims to track the performance of the healthcare and pharmaceutical sector of the FTSE World Index
- Invests in a global range of companies engaged in healthcare, pharmaceutical and biotechnology activities
- Employs a straightforward, low-cost and pragmatic index replication approach

INDEX TRACKING

The Fund aims to provide exposure to stock market investment but without all the risk attached to individual stock selection. This produces low tracking error and limited stock picking or 'style' risks. The Fund takes a pragmatic approach to trading on index changes and cash flow and has lower management fees than active funds. This Fund adds a more specialist investment in health and pharmaceuticals shares to an existing portfolio.

GROSS TRACKING DEVIATION (%)

INDEX FUND MANAGEMENT TEAM

The Index Fund Management team comprises 25 fund managers, supported by two analysts. Management oversight is provided by the Global Head of Index Funds. The team has average industry experience of 15 years, of which seven years has been at LGIM, and is focused on achieving the equally important objectives of close tracking and maximising returns.

KEY RISKS

- The return from this fund is dependent on relatively few individual investments. This means that a fall in the value of an individual investment can have a major impact on the overall performance of the fund.
- Most of the fund holds investments from a particular market sector, that of health, pharmaceuticals and biotechnology. Funds like this can be more volatile than funds that invest across many market sectors. This is because the value of the fund can go up and down more often and by larger amounts than funds that are spread more widely, especially in the short term.
- The fund could lose money if any institution providing services such as acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the fund.
- Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
- The fund may have underlying investments that are valued in currencies that are different from sterling (British pounds). Any such investments will be impacted by exchange rate fluctuations and this may affect the value of your investment and any income from it. Currency hedging techniques may be applied to reduce the impact of exchange rate fluctuations but may not entirely eliminate it.
