Legal & General Future World ESG Asia Pacific Index Fund

Class I Income - ISIN: GB00BL693H58

The authorised fund manager of the Fund is Legal & General (Unit Trust Managers) Limited (the "Manager").

OBJECTIVES AND INVESTMENT POLICY

- The objective of the Fund is to provide a combination of growth and income by tracking the performance of the Solactive L&G Enhanced ESG APAC ex JP Index NTR, the "Benchmark Index" before fees and expenses are applied.
 - Fund performance may differ from the Benchmark due to the deduction of fees and expenses. Returns will also be impacted by tracking error factors such as transaction costs and portfolio weightings differing from the Benchmark Index.
 - The Fund replicates as closely as possible the constituents of the Benchmark Index by investing at least 90% in the shares of companies that make up the Benchmark Index and in similar proportions to their weighting in the Benchmark Index.
 - The Benchmark Index is comprised of shares in companies that are incorporated, headquartered or which have their principal business activities in the Asia-Pacific region excluding Japan.
 - The Benchmark Index is designed to increase exposure to companies that demonstrate good environmental, social and governance ("ESG") efforts and targets an annual reduction in its overall carbon emissions.
 - This means the Fund will invest more in companies that score well against the Manager's proprietary ESG criteria, and less in companies that do not. The Benchmark Index will be rebalanced twice a year.
 - The Benchmark Index will exclude companies from sectors the Manager considers incompatible with good ESG criteria. The Benchmark Index methodology may change over time as the Manager's ability to evaluate ESG criteria changes.
 - The Manager may exclude shares in companies from the Fund which do not meet the Manager's "Climate Impact Pledge", in order to encourage strong governance and sustainable strategies. The number of companies excluded could be limited by the target tracking error.
 - The Fund may invest in shares in companies which are reasonably expected to become part of the Benchmark Index or are an alternative to a constituent of the Benchmark Index.
 - The Fund may also invest in money market instruments (such as treasury bills), cash, deposits and collective investment schemes, including those managed or operated by Legal & General.
 - The Fund may use derivatives (contracts which have a value linked to the price of another asset) for efficient portfolio management purposes to:
 - reduce risk or cost; or
 - generate additional capital or income with no, or an acceptably low, level of risk.
 - An up-to-date overview of the Benchmark Index, including excluded sectors is available on Solactive's website: [Solactive L&G Enhanced ESG Methodology](#)
 - A summary of the Manager's Climate Impact Pledge is available at: www.lgim.com/climate-impact-pledge Solactive L&G Enhanced ESG Methodology
- Other information:**
- The Fund is passively managed as it tracks the Benchmark Index.
 - Your units will be income units. Income from the Fund's investments will be paid out to you every six months (as a dividend). This will reduce your capital growth accordingly.
 - You can buy or sell units in this fund on any business day. You need to contact us with your instruction before midday. This is the time we calculate unit prices for this fund. If you contact us after midday, the units will be bought or sold at the next business day's price.
 - The Fund's base currency is denominated in sterling (British pounds).
 - This Fund is designed for investors looking for growth and income by investing more in shares in companies that demonstrate good environmental, social and governance efforts in the Asia-Pacific region excluding Japan, as represented by the Benchmark Index.
 - Although investors can take their money out at any time, this Fund may not be appropriate for those who plan to withdraw their money within five years.
 - This Fund is not designed for investors who cannot afford more than a minimal loss of their investment.
 - If you do not understand this document we recommend you seek additional information to help you decide if this Fund is right for you.

RISK AND REWARD PROFILE

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is not guaranteed to remain the same and may change over time. It is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table above shows the Fund's ranking on the Risk and Reward Indicator.
 - The Fund is in category 6 because it invests in company shares which are sensitive to variations in the stock market. The value of company shares can change substantially over short periods of time. Company shares are generally considered to be higher risk investments than bonds or cash.
 - Even a fund in the lowest category is not a risk free investment.
 - The value of your investment and any income you take from it may fall as well as rise and is not guaranteed. You might get back less than you invest.
- Further information on the risks of investing in this fund is contained in the Prospectus available at www.legalandgeneral.com/reports.
The risk and reward indicator may not take account of the following risks of investing in the Fund:

- The Fund could lose money if any institutions providing services such as acting as counterparty to derivatives or other instruments, becomes unwilling or unable to meet its obligations to the Fund.
- Derivatives are highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains.
- The Fund has a sustainability and/or ESG focus in its investment process which may i) limit the Fund's exposure to or exclude certain companies, industries or sectors ii) impact the Fund's investment performance compared to other funds that do not apply such criteria and, iii) differ from an investor's own sustainability and/or ESG criteria.
- The Fund may invest in countries where investment markets are considered to be less developed. This means that investments are generally riskier than those in developed markets because they: (i) may not be as well regulated; (ii) may be more difficult to buy and sell; (iii) may have less reliable arrangements for the safekeeping of investments; or (iv) may be more exposed to political and taxation uncertainties. The value of the Fund can go up or down more often and by larger amounts than funds that invest in developed countries, especially in the short-term.
- Where companies in the Index are excluded from the Fund as a result of the Climate Impact Pledge, this may affect the ability of the manager to closely track the performance of the Index.
- The Fund may have underlying investments that are valued in currencies that are different from GBP. Exchange rate fluctuations will impact the value of your investment. Currency hedging techniques may be applied to reduce this impact but may not entirely eliminate it.

CHARGES

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential return from your investment.

- There are no entry or exit charges.
- The ongoing charges figure is based on estimates at launch. The Fund's annual report for each financial year will include detail on the exact charges made. This figure may vary from year to year.
- This Fund's ongoing charges include any charges made by any other funds it may invest in. They exclude portfolio transaction costs.
- The ongoing charges are taken from the income of the Fund.

Other costs:

- **Dilution Adjustment:** on any day, the prices for buying or selling units in this Fund are the same. The Fund manager calculates a single price for this Fund based on the mid-point between the buying and selling prices of the Fund's assets. In certain circumstances, the Fund manager can adjust this price to account for whether there is more money going into or coming out of the Fund. This is called a 'dilution adjustment'. This can vary but as an example for this Fund we estimate 0.11% for purchases and 0.11% for sales at launch. The amount of the dilution adjustment may differ in future.
- For more information about charges and costs, please see the charges and expenses section in the Fund's Prospectus, or visit our website at legalandgeneral.com/chargesandfees.
