INDEX DESCRIPTION

The Index is comprised of "A shares" issued by large and medium sized companies domiciled in the People's Republic of China (the "PRC") which are publically traded on the Shanghai and Shenzhen stock exchanges. A company is only eligible for inclusion in the Index if it is of a sufficient size (determined by reference to (1) the total market value of the company and (2) the proportion of its A shares that is deemed to be available for purchase in the public equity markets in the PRC, i.e. not subject to any restrictions or strategic ownership) and if its A shares are sufficiently "liquid" (a measure of how actively they are traded). Within the Index, each company is then weighted according to its relative size.

SUB-INVESTMENT MANAGER

E Fund Management (Hong Kong) Co., Ltd ("E Fund") is one of the leading asset management groups in China. Headquartered in Guangzhou, the company has offices in Beijing, Shanghai, Chengdu, Dalian, Nanjing, Hong Kong and the United States. E Fund is a licensed RQFII investor, and one of the largest RQFII quota holders. The company has total assets of RMB 1,100 billion (as at 31 September 2017).

INVESTMENT MANAGER

GO ETF Solutions LLP is the investment manager for this ETF and is responsible for its day-to-day investment management decisions. The team is highly experienced with respect to all aspects relating to the management of an ETF portfolio, including collateral management, OTC swap trading, adherence to UCITS regulations and counterparty exposure and monitoring.

KEY RISKS

- The value of an investment and any income taken from it is not guaranteed and can go down as well as up; you may not get back the amount you originally invested.
- An investment in the ETF involves a significant degree of risk. Any decision to invest should be based on the information contained in the relevant prospectus. Prospective investors should obtain their own independent accounting, tax and legal advice and should consult their own professional advisers to ascertain the suitability of the ETF as an investment.
- The ETF's ability to closely track the Index will be affected by its ability to purchase and/or sell the Index constituents and any legal or regulatory restrictions or disruptions affecting them. Such factors tend to be more prevalent in Chinese stock markets and may also affect the ETF's ability to determine its net asset value ("NAV") and/or lead to the suspension of subscriptions and redemptions of ETF shares.
- The ETF's ability to closely track the Index will also be affected by transaction costs and taxes incurred when adjusting its investment portfolio generally and/or to mirror any periodic adjustments to the constituents of the Index.
- The ETF's performance may be impacted by any gradual and/or sudden changes to any applicable rules, laws, regulations, economic policies and political environment in China and any governmental intervention in the stock and/or foreign exchange markets which may limit the ETF's ability to invest in A-shares, limit the ETF's ability to repatriate its cash out of China or affect the ETF's rights over its investments.
- Corporate governance and accounting/reporting standards for companies in China are typically lower than developed markets and may affect the value of the ETF's investments.
- The ETF may not be able to procure additional RQFII investment quota to match investor demand for the ETF which may cause subscriptions to be suspended and the ETF shares to trade at a premium to NAV on stock exchanges.
- The PRC tax authorities do not currently impose capital gains tax ("CGT") on the ETF's investments in A-shares pursuant to a temporary exemption that was implemented on 17 November 2014. However, there is a risk that the PRC tax authorities may at any time (and without notice) revoke the temporary exemption and seek to impose CGT on the ETF's investments which would adversely affect investors at such time.
- There is no capital guarantee or protection on the value of the ETF. Investors can lose all the capital invested in the ETF.
- Please refer to the "Risk Factors" section of the Issuer's Prospectus and the Fund Supplement.
