### Manager's Investment Report

### **Investment Objective and Policy**

In line with the updated rules and guidance for the asset management industry published by the Financial Conduct Authority (FCA) in February 2019, we have clarified the Investment Objectives and Policies for our UK regulated funds.

The revised Investment Objective and Policy came into effect on 7 August 2019. The previous and revised Investment Objective and Policy are set out below.

#### Prior to 7 August 2019

The objective of the Fund is to track the performance of the Markit iBoxx Sterling Non-Gilts ex BBB Index (after adjustment for management charge and taxation).

The Fund will invest primarily in the securities that make up the constituents of the Markit iBoxx Sterling Non-Gilts ex BBB Index. Securities in the Markit iBoxx Sterling Non-Gilts ex BBB Index will be held with weightings generally proportionate to their issuance of debt.

The Fund may hold derivatives for the purpose of Efficient Portfolio Management.

#### From 7 August 2019

The objective of the Fund is to provide a combination of growth and income by tracking the performance of the Markit iBoxx Sterling Non-Gilts ex BBB, the "Benchmark Index". This objective is after the deduction of charges and taxation.

The Benchmark Index is comprised of corporate bonds that have an average rating of A, AA or AAA and are denominated in British Pounds.

The Fund is a Replicating Fund as it seeks to replicate as closely as possible the constituents of the Benchmark Index by holding all, or substantially all, of the assets comprising the Benchmark Index in similar proportions to their weightings in the Benchmark Index. The Fund will have at least 90% exposure to assets that are included in the Benchmark Index.

The Fund may also invest in bonds which are reasonably expected to become part of the Benchmark Index in the near future or are an alternative to a constituent of the Benchmark Index and collective investment schemes, including those managed or operated by the Manager or an associate of the Manager as well as money market instruments (such as treasury bills), cash and permitted deposits.

The Fund may only use derivatives for Efficient Portfolio Management purposes.

#### Manager's Investment Report

During the period under review, the bid price of the Fund's I-Class accumulation units rose by 4.12%. Markit iBoxx, the Index compiler, calculates the benchmark Index at the end of the business day using closing prices, whereas the Fund is valued using prevailing prices at 12 noon. Therefore, for tracking purposes the Fund has been revalued using closing prices. On this basis, over the review period, the Fund rose by 3.98%, compared with the Index rise of 3.93% (Source: Bloomberg), producing a tracking difference of +0.05%.

#### Past performance is not a guide to future performance.

#### Market/Economic Review

Optimism over the outlook for the global economy and corporate earnings helped Sterling credit markets to deliver solid returns over the review period. Hopes that negotiations could resolve the US-China trade dispute and confidence that US-led cuts in global interest rates will help to stimulate economic activity lent support to risk-based assets, such as corporate bonds and equities. Meanwhile, against the backdrop of the cooling UK economy, investors looked forward to greater Brexit-related political clarity after the 12th December general election.

Corporate bond prices rallied strongly over the opening weeks of the review period amid hopes that, following early May's acrimonious breakdown of US-China trade negotiations, an agreement to restart talks could pave the way to reducing global trade barriers. Signs that leading global central banks, particularly the Federal Reserve and the European Central Bank, were moving towards cutting interest rates, potentially supporting global economic activity and thereby corporate earnings, also helped sentiment. The rally in the underlying gilt market, partly driven by signs that prolonged Brexit-related uncertainties were weighing on economic growth, further underpinned UK credit markets. Compared to growth of 0.5% during the first quarter, the UK economy contracted by -0.2% during the second quarter, its first quarterly shrinkage in nearly 7 years. Although the figures were affected by stockpiling ahead of the scheduled 29th March 2019 Brexit date, survey data increasingly reflected uncertainties facing the economy, particularly as Boris Johnston replaced Theresa May as Prime Minister in late July, pledging that the UK would leave the EU at the end of October, 'with or without a deal'.

Even as global government bonds lost some of their 'safe haven' appeal from late August as US-led interest rate cuts eased recessionary fears and hopes grew over progress towards a preliminary US-China trade deal, Sterling corporate bond markets largely retained their previous gains late in the period. Investors remained vigilant over political developments as MPs obliged PM Johnson to seek another extension to Brexit, with the EU subsequently agreeing a departure date of 31st January 2020. With UK inflation slipping to 1.5%, well below the official 2.0% target, in November

### Manager's Investment Report continued

two members of the Bank of England's Monetary Policy Committee favoured cutting interest rates, although the Bank Rate nevertheless remained unchanged at 0.75% as a majority of policymakers favoured retaining a patient approach. Even as confidence among consumers and businesses remained low, data released in late November showed that the UK economy had avoided recession with growth of 0.3% during the third quarter. Nonetheless, year-on-year economic growth fell to 1.0%, the slowest since early 2010, reflecting the combination of global and domestic challenges facing the UK economy.

#### **Fund Review**

All investment activity was prompted either by unit holder activity or by monthly changes in the profile of the benchmark. During the review period, 32 bonds were added to the Index whilst 13 bonds left the benchmark. The Fund participated in almost all new issues during the review period as well as several corporate actions across a range of sectors and issuers.

There were no significant changes in the Index or portfolio exposure over the review period, both in terms of rating or sector exposure. The Corporates sector Index weight increased by 1.2% out of Sub-Sovereigns and Collateralized, which both dropped by around 0.5%. The weight changes in ratings reflected this move to a lower quality seen in the sector weights with a 1% increase in single A-rated bonds out of AA-rated bonds.

At the end of the review period the Fund held 708 bonds issued by 263 issuers. The Index consisted of 686 bonds issued by 261 issuers.

The Fund experienced net positive cash flow during the review period. The cash flows were used to adjust the Fund's holdings in such a way so as to ensure the Fund maintained an Index distribution at all times.

#### Outlook

With encouraging signs emerging in November over the prospect of a preliminary US-China trade deal, optimism that rising barriers to global trade could be removed in 2020 have represented a helpful backdrop for risk-based assets. Should global economic data continue to indicate that the worst is behind us, then investor confidence that recent US-led central bank easing has been sufficient to ward off recession should rise further, to the further benefit of equities and corporate bonds. Looking beyond the results of the UK election, the outlook for UK assets is also heavily influenced by the outcome of next year's trade negotiations with the EU, particularly in view of a potentially tight deadline to agree even a provisional trade deal by the end of 2020 following the scheduled 31st January date.

The Fund remains well placed to capture the performance of the Index.

### Notes to the Financial Statements

### 1. Statement of Compliance

The Financial Statements have been prepared in compliance with UK Financial Reporting Standard 102 (FRS 102) and in accordance with the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Management Association in May 2014 (2014 SORP).

### 2. Accounting Policies

The accounting policies applied are consistent with the most recent annual Financial Statements.

### (a) Basis of Preparation

The Financial Statements have been prepared on a going concern basis, under the historical cost convention as modified by the revaluation of certain financial assets and liabilities measured at fair value through profit or loss.

### Risk and Reward Profile

- The Risk and Reward Indicator table demonstrates where the Fund ranks in terms
  of its potential risk and reward. The higher the rank the greater the potential
  reward but the greater the risk of losing money. It is not guaranteed to remain the
  same and may change over time. It is based on historical data and may not be a
  reliable indication of the future risk profile of the Fund. The shaded area in the
  table above shows the Fund's ranking on the Risk and Reward Indicator.
- The Fund is in category three because it invests in company or government bonds which are sensitive to changes in interest rates, inflation and credit. This can be driven by political and economic changes and other significant events and may cause the value to go up and down. Bonds that are closer to their maturity date tend to be more stable in value. Bonds are generally considered to be higher risk investments than cash, but lower risk than company shares.
- Even a fund in the lowest category is not a risk free investment.

#### Information on Tracking Error

The 'Tracking Error' of a Fund is the measure of the volatility of the differences between the return of the Fund and the return of the benchmark Index. It provides an indication of how closely the Fund is tracking the performance of the benchmark Index after considering things such as Fund charges and taxation.

Using monthly returns, over the review period, the annualised Tracking Error of the Fund is 0.10%, whilst over the last three years to the end of October 2019, the annualised Tracking Error of the Fund is 0.09%. These Tracking Errors are within the anticipated Tracking Error levels set out in the Fund's Prospectus of  $\pm$ 0.50% per annum.

### **EU Savings Directive**

The Fund has been reviewed against the requirements of the Directive 2003/48/EC on Taxation of savings in the form of interest payments (ESD), following the HM Revenue & Customs debt investment reporting guidance notes.

Under the Directive, information is collected about the payment of distributions to residents in certain other countries and is reported to HM Revenue & Customs to be exchanged with Tax authorities in those countries.

The Fund falls within the 25% debt investment reporting threshold. This means that details of all distributions and redemption proceeds paid to non UK investors will be reported by Legal & General (Unit Trust Managers) Limited to HM Revenue & Customs to be exchanged with the relevant Tax authorities.

#### **Dual Pricing Arrangement**

The Manager's fixed dual pricing arrangement has a set spread to account for the costs of transacting in a particular Fund. Where the Manager operates a box through which unit subscriptions and unit redemptions are netted into a single trade instruction to the Trustee, the netting reduces the actual transaction costs and this generates a revenue to the Manager. The revenue generated from this activity is calculated on a monthly basis and returned to the Fund in the form of a payment from the Manager. This provides an enhanced return to the Fund, though the size of any return will be dependent on the size of subscriptions and redemptions.

#### **Assessment of Value**

We will be publishing Assessment of Value reports for our funds on legalandgeneral.com and lgim.com on 30 April 2020. Please look out for further information nearer the time.

### Significant Changes

### Change in Investment Objective and Policy

In line with the updated rules and guidance for the asset management industry published by the Financial Conduct Authority (FCA) in February 2019, we have clarified the Investment Objectives and Policies for our UK regulated funds.

The revised Investment Objective and Policy came into effect on 7 August 2019. The previous and revised Investment Objective and Policy are set out on page 2.

### **Publication of Short Report Discontinued**

With effect from 20 September 2019, the Short Report for this Fund will no longer be issued.
