Manager's Investment Report

Investment Objective and Policy

The objective of the Fund is to provide a combination of growth and income.

The Fund is actively managed and will have exposure to shares in companies, bonds (both corporate and government), money market instruments (such as treasury bills), cash, deposits and indirectly to property and alternative asset classes (such as commodities). The shares in companies and bonds may represent all economic sectors and geographical areas.

The Fund will have exposure of between 20% and 60% to shares in companies and at least 30% of the value of the Fund to bonds and money market instruments.

To obtain the exposure to shares in companies, bonds, money market instruments and cash, the Manager may invest directly and/or in collective investment schemes (both active and Index tracker) including those which are operated by the Manager or an associate of the Manager. At times the Fund may be fully invested in collective investments schemes only or direct investments only.

The Fund may only use derivatives for Efficient Portfolio Management purposes.

Manager's Investment Report

During the year under review, the published price of the Fund's I-Class accumulation units rose by 13.26%. The Fund over-performed its benchmark as funds within the Investment Association Mixed Investment 20-60% Sector delivered an average return of 11.43% (Source: Lipper Index)

income from them may go down as well as up.

Exchange rate changes may cause the value of any overseas investments to rise or fall.

Market/Economic Review

In response to the extreme market volatility caused by the swift spread of COVID-19 around the world, and the extraordinary lockdown measures implemented to control it, central banks and governments worldwide supplied and sustained an extensive range of monetary and fiscal stimulus packages to underpin the global economy. Eighteen months into the global pandemic, the success of vaccine rollouts across the developed world, in particular, mean that policymakers are starting to look further ahead and beyond COVID-19 emergency measures.

Global equity indices made strong gains over the past year as investors weighed up the likely trajectory of the economic recovery from the pandemic. Unprecedented stimulus from central banks and the creation of effective vaccines were the two pillars of the rebound. Yields on government bonds rose as an improving economic backdrop over the year since the onset of the pandemic led investors to favour equities, though the rise tailed off during the second half of the review year on inflationary worries and COVID-19-related risk aversion. Concerns over higher inflation and a subsequent rise in rates remained front and centre for investors as the second quarter of 2021 began, although the rise in 10-year Treasury yields seen since the start of the year slowed and

Manager's Investment Report continued

showed signs of reversing towards the end of the year following further reassurance from the US Federal Reserve (Fed) that no immediate changes to policy were on the agenda, coupled with increasing perceptions of geopolitical risk on the back of deteriorating relations between Russia and the US. The spread of the Delta variant of COVID-19 further dampened appetite for risk in the closing month of the year under review.

Fund Review

The early months of the review year were characterised by uncertainty over both virus developments and political direction, with the outcome of the US presidential election far from clear and a dreaded 'no-deal' Brexit scenario an increasing possibility as the clock ticked down to the 2021 deadline. Positive news on vaccines, an eventual resolution of a tightly contested US presidential election and an eleventh-hour Brexit trade deal collectively marked a turning point in markets. Risk assets such as equities claimed the lion's share of the gains, and our exposure to US equities was a notable contributor in this year. UK and European equities initially lagged the US, but went on to deliver strong gains towards the end of 2020 as the economic backdrop brightened.

The outperformance of equities versus fixed income continued in 2021 as economic indicators coming from the US consistently beat forecasts, while the UK also put in a strong performance and Europe belatedly gathered steam as its vaccination programme allowed shuttered businesses to open their doors once more. Towards the end of the review year, we reduced our exposure to US government bonds in anticipation of strong jobs numbers from the country, which would strengthen the case for an eventual rise in interest rates. This is an example of the approach we currently have in place to manage our duration exposure over key risk events.

We also adjusted exposure to US government bonds at various maturities. This was after we saw the US yield curve flatten to a greater degree than expected following the mid-June Fed meeting. We reduced exposure to long dated US bonds in favour of short-dated bonds in anticipation that some of this flattening would reverse.

In equities, we rebalanced our allocation to artificial intelligence stocks after witnessing a sell-off in the sector versus the broad US market. However, we believe the sell-off was somewhat excessive. The earnings outlook is still strong for tech, and if anything has strengthened recently, so we have taken the opportunity to add exposure.

Outlook

We expect the economic recovery to continue, with the near-term range of outcomes narrowing as the vaccine rollout continues apace worldwide. We had recently moved our view on overall risk down half a notch from +1 to +0.5 (scale of -3 to +3) given our concerns over the spread of the delta variant of COVID-19 in China. The country's tried and tested policy of mass testing and aggressive lockdowns was deployed as anticipated, however, it has been more effective on the delta variant than we had expected. For this reason, we moved our risk view back to +1 at the end of August and will gradually allow our exposure to risk assets to drift upwards to effect this.

While developed markets, led by the US, are at the forefront of the rebound, emerging market macro fundamentals remain solid, despite the waves of COVID-19. However, countries that are major tourist destinations are likely to remain relative 'losers' due to ongoing border restrictions. And even though headline inflation, boosted by commodity prices and supply bottlenecks, remains elevated, we see little impact on our growth forecasts at current levels and expect inflationary pressures to be transitory.

Manager's Investment Report continued

Against this backdrop, we expect the Fed to begin tapering its asset purchases by year-end.

Legal & General Investment Management Limited

(Investment Adviser)

Important Note from the Manager

Since January 2020, global financial markets have been affected by the COVID-19 pandemic. Whilst causing major uncertainty within markets and disrupting businesses, as well as everyday life, the success of vaccination rollout programs around the globe has seen markets stabilise and a degree of normality return. As lockdown measures in major economies are relaxed, we are cognisant of an upturn in infection rates and the potential for restrictions and volatility to return. As such, the Manager is monitoring the situation on an on-going basis.

Statement of Responsibilities

Statement of the Manager's Responsibilities

The Collective Investment Schemes sourcebook published by the FCA, ("the COLL Rules") require the Manager to prepare financial statements for each annual accounting period which give a true and fair view of the financial position of the Fund and of the net income and net gains or losses on the property of the Fund for the period.

In preparing the financial statements, the Manager is responsible for:

- selecting suitable accounting policies and then applying them consistently;
- making judgements and estimates that are reasonable and prudent;
- following UK accounting standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland;
- complying with the disclosure requirements of the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Association in May 2014;
- keeping proper accounting records which enable it to demonstrate that the financial statements as prepared comply with the above requirements;
- assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
- using the going concern basis of accounting unless they either intend to liquidate the Fund or to cease operations, or have no realistic alternative but to do so;
- such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; and
- taking reasonable steps for the prevention and detection of fraud and irregularities.

The Manager is responsible for the management of the Fund in accordance with its Trust Deed, the Prospectus and the COLL Rules.

The Manager is responsible for the maintenance and integrity of the corporate and financial information included on the Fund's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Statement of Responsibilities continued

Statement of the Trustee's Responsibilities

The Depositary in its capacity as Trustee of Legal & General Mixed Investment 20-60% Fund must ensure that the Fund is managed in accordance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook ("COLL"), the Financial Services and Markets Act 2000, as amended, (together "the Regulations"), the Trust Deed and Prospectus (together "the Scheme documents") as detailed below.

The Depositary must in the context of its role act honestly, fairly, professionally, independently and in the interests of the Fund and its investors.

The Depositary is responsible for the safekeeping of all custodial assets and maintaining a record of all other assets of the Fund in accordance with the Regulations.

The Depositary must ensure that:

- the Fund's cash flows are properly monitored and that cash of the Fund is booked in cash accounts in accordance with the Regulations;
- the sale, issue, repurchase, redemption and cancellation of units are carried out in accordance with the Regulations;
- the value of units of the Fund are calculated in accordance with the Regulations;
- any consideration relating to transactions in the Fund's assets is remitted to the Fund within the usual time limits;
- the Fund's income is applied in accordance with the Regulations; and
- the instructions of the Authorised Fund Manager ("the AFM"), which is the UCITS Management Company, are carried out (unless they conflict with the Regulations).

Report of the Trustee

Report of the Trustee to the Unitholders of the Legal & General Mixed Investment 20-60% Fund ("the Fund") for the year ended 31 July 2021

The Depositary also has a duty to take reasonable care to ensure that the Fund is managed in accordance with the Regulations and the Scheme documents of the Fund in relation to the investment and borrowing powers applicable to the Fund.

Having carried out such procedures as we considered necessary to discharge our responsibilities as Depositary of the Fund, it is our opinion, based on the information available to us and the explanations provided, that, in all material respects the Fund, acting through the AFM:

- (i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Fund's units and the application of the Fund's income in accordance with the Regulations and the Scheme documents of the Fund; and
- (ii) has observed the investment and borrowing powers and restrictions applicable to the Fund in accordance with the Regulations and the Scheme documents of the Fund.

Independent Auditor's Report

Independent auditor's report to the Unitholders of Legal & General Mixed Investment 20-60% Fund ('the Fund')

Opinion

We have audited the financial statements of the Fund for the year ended 31 July 2021 which comprise the Statement of Total Return, the Statement of Change in Net Assets Attributable to Unitholders, the Balance Sheet, the Related Notes and Distribution Tables for the Fund and the accounting policies set out on pages 19 to 20.

In our opinion, the financial statements:

- give a true and fair view, in accordance with UK accounting standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland, of the financial position of the Fund as at 31 July 2021 and of the net revenue and the net capital gains on the property of the Fund for the year then ended; and
- have been properly prepared in accordance with the Trust Deed, the Statement of Recommended Practice relating to UK Authorised Funds, and the COLL Rules.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Fund in accordance with, UK ethical requirements including the FRC Ethical Standard.

We have received all the information and explanations which we consider necessary for the purposes of our audit and we believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

The Manager has prepared the financial statements on the going concern basis as they do not intend to liquidate the Fund or to cease their operations, and as they have concluded that the Fund's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over their ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

In our evaluation of the Manager's conclusions, we considered the inherent risks to the Fund's business model and analysed how those risks might affect the Fund's financial resources or ability to continue operations over the going concern period.

Our conclusions based on this work:

- we consider that the Manager's use of the going concern basis of accounting in the preparation of the financial statements is appropriate;
- we have not identified, and concur with the Manager's assessment that there is not, a material uncertainty related to events or conditions that, individually or collectively, may cast significant doubt on the Fund's ability to continue as a going concern for the going concern period.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the above conclusions are not a guarantee that the Fund will continue in operation.

Independent Auditor's Report continued

Fraud and breaches of laws and regulations – ability to detect

Identifying and responding to risks of material misstatement due to fraud

To identify risks of material misstatement due to fraud (“fraud risks”) we assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. Our risk assessment procedures included:

- Enquiring of directors as to the Fund’s high-level policies and procedures to prevent and detect fraud, as well as whether they have knowledge of any actual, suspected or alleged fraud;
- Assessing the segregation of duties in place between the Manager, the Trustee, the Administrator and the Investment Adviser;
- Reading board minutes.

As required by auditing standards, we perform procedures to address the risk of management override of controls, in particular the risk that management may be in a position to make inappropriate accounting entries. On this audit we do not believe there is a fraud risk related to revenue recognition because the revenue is principally nonjudgemental and based on publicly available information, with limited opportunity for manipulation. We did not identify any additional fraud risks.

We evaluated the design and implementation of the controls over journal entries and other adjustments and made inquiries of the Administrator about inappropriate or unusual activity relating to the processing of journal entries and other adjustments. We substantively tested all material post-closing entries and, based on the results of our risk assessment procedures and understanding of the process, including the segregation of duties between the Manager and the Administrator, no further high-risk journal entries or other adjustments were identified.

Identifying and responding to risks of material misstatement due to non-compliance with laws and regulations

We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general commercial and sector experience and through discussion with the Manager and the Administrator (as required by auditing standards) and discussed with the Directors the policies and procedures regarding compliance with laws and regulations.

The potential effect of these laws and regulations on the financial statements varies considerably.

Firstly, the Fund is subject to laws and regulations that directly affect the financial statements including financial reporting legislation (including related authorised fund legislation maintained by the Financial Conduct Authority) and taxation legislation and we assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.

Independent Auditor's Report continued

Secondly, the Fund is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation. We identified the following areas as those most likely to have such an effect: money laundering, data protection and bribery and corruption legislation recognising the Fund's activities. Auditing standards limit the required audit procedures to identify non-compliance with these laws and regulations to enquiry of the Directors and the Administrator and inspection of regulatory and legal correspondence, if any. Therefore if a breach of operational regulations is not disclosed to us or evident from relevant correspondence, an audit will not detect that breach.

Context of the ability of the audit to detect fraud or breaches of law or regulation

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remained a higher risk of non-detection of fraud, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Our audit procedures are designed to detect material misstatement. We are not responsible for preventing non-compliance or fraud and cannot be expected to detect non-compliance with all laws and regulations.

Other information

The Manager (Legal & General (Unit Trust Managers) Limited) is responsible for the other information presented in the Annual Manager's Report together with the financial statements. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the other information; and
- in our opinion the information given in Manager's Report for the financial year is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where under the COLL Rules we are required to report to you if, in our opinion:

- proper accounting records for the Fund have not been kept; or
- the financial statements are not in agreement with the accounting records.

Independent Auditor's Report continued

Manager's responsibilities

As explained more fully in their statement set out on page 6, the Manager is responsible for: the preparation of financial statements that give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Fund's unitholders, as a body, in accordance with Rule 4.5.12 of the Collective Investment Schemes sourcebook ("the COLL Rules") issued by the Financial Conduct Authority under section 247 of the Financial Services and Markets Act 2000. Our audit work has been undertaken so that we might state to the Fund's unitholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Fund and the Fund's unitholders as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the Financial Statements

1. Statement of Compliance

The Financial Statements have been prepared in compliance with UK Financial Reporting Standard 102 (FRS 102) and in accordance with the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Association in May 2014 (2014 SORP).

2. Summary of Significant Accounting Policies

(a) Basis of Preparation

The Financial Statements have been prepared on a going concern basis, under the historical cost convention as modified by the revaluation of certain financial assets and liabilities measured at fair value through profit or loss. In making this assessment, and in response to COVID-19, the Manager has considered, amongst other things, factors such as Fund size, cash flows through the Fund and Fund liquidity in its assessment of the Fund's ability to meet its liabilities as they fall due. Based on this assessment, the Manager deems the basis of preparation appropriate.

The principal accounting policies which have been applied consistently are set out below.

(b) Functional and Presentation Currency

The functional and presentation currency of the Fund is Sterling.

(c) Recognition of Revenue

Bond revenue is accounted for on an effective yield basis, calculated with reference to the purchase price. If the Manager believes that future commitments will not be met due to the bond issuer showing signs of financial distress, revenue accruals will be discounted. Any resultant revenue from these issues will then be treated on a receipts basis.

Revenue from distribution and accumulation units in Collective Investment Schemes is recognised when the distribution is quoted ex-dividend.

Equalisation on distributions received from Collective Investment Schemes is treated as capital property of the Fund.

Rebates received from underlying Collective Investment Schemes are treated as revenue or capital depending on the treatment of the Manager's fees in the underlying Fund.

Revenue from offshore funds is recognised when it is reported.

Revenue from derivative instruments is treated in accordance with note 2(i).

All other revenue is recognised on an accruals basis.

(d) Treatment of Expenses

All expenses (other than those relating to the purchase and sale of investments) are charged against revenue on an accruals basis.

Where the Fund is substantially invested in permitted collective investment schemes (including exchange traded funds) the maximum amount of management fees chargeable to those schemes will not exceed 2.50% points per annum.

Notes to the Financial Statements continued

2. Summary of Significant Accounting Policies continued

(e) Distribution Policy

The policy is to distribute all available revenue, after deduction of those expenses which are chargeable in calculating the distribution. In order to conduct a controlled dividend flow, interim distributions will be at the Manager's discretion, up to a maximum of the distributable revenue for the period. All remaining revenue is distributed in accordance with the COLL.

Fund management fees are deducted from revenue for the purpose of calculating the distribution.

Distributions which have remained unclaimed by Unitholders for over six years are credited to the capital property of the Fund.

(f) Basis of Valuation of Investments

All investments are valued at their fair value as at 3pm on 30 July 2021, being the last working day of the accounting year. The fair value for non-derivative securities is bid market price, excluding any accrued interest. The fair value for units in Collective Investment Schemes is the cancellation price or bid price for dual priced funds and single price for single priced funds. The fair value for derivative instruments is the cost of closing out the contract on the last working day of the accounting year.

Where values cannot be readily determined, the securities are valued at the Manager's best assessment of their fair and reasonable value.

(g) Taxation

Provision is made for taxation at current rates on the excess of investment revenue over expenses.

Deferred tax is provided for on all timing differences that have originated but not reversed by the balance sheet date, other than those differences that are regarded as permanent. Any liability to deferred tax is provided for at the average rate of tax expected to apply.

(h) Foreign Exchange

Transactions in foreign currencies are translated at the rate of exchange ruling on the date of the transaction. Where applicable, assets and liabilities denominated in foreign currencies are translated into Sterling at the rates of exchange ruling at 3pm on 30 July 2021, being the last working day of the accounting year.

(i) Derivative Instruments

The Fund may make use of financial derivative instruments for Efficient Portfolio Management (EPM) purposes. EPM aims to reduce risk, reduce costs, or generate additional capital or income for the Fund with an acceptably low level of risk. These aims allow for tactical asset allocation, which is a temporary switch in investment exposure through the use of derivatives rather than trading the underlying securities.

Derivative instruments held within the Fund have been accounted for and taxed in accordance with the Statement of Recommended Practice for Authorised Funds (IA SORP 2014). Returns on derivative transactions have been treated as either revenue or capital depending on the motives and circumstances on acquisition.

Notes to the Financial Statements continued

3. Net capital gains/(losses)

	31/07/21	31/07/20
	£	£
The net capital gains/(losses) during the year comprise:		
Non-derivative securities	109,580,680	(67,468,433)
Derivative securities	21,588,267	8,873,759
Forward currency contracts	(951,274)	—
Currency losses	(2,204,988)	(1,537,731)
Management fee rebates	128,613	168,705
Net capital gains/(losses)	<u>128,141,298</u>	<u>(59,963,700)</u>

4. Revenue

	31/07/21	31/07/20
	£	£
Bond interest	476,197	343,691
UK Franked distributions	10,817,084	14,127,204
Interest distributions	15,124,440	18,308,950
Management fee rebates	866,714	817,206
Taxable overseas distributions	862,064	594,777
Futures revenue	1,847,317	1,174,898
Bank interest	286	87,300
	<u>29,994,102</u>	<u>35,454,026</u>

5. Expenses

	31/07/21	31/07/20
	£	£
Payable to the Manager, associates of the Manager and agents of either of them:		
Fund management fees	<u>3,339,658</u>	<u>3,259,137</u>
Total expenses	<u>3,339,658</u>	<u>3,259,137</u>

Audit fees of £11,255 plus VAT of £2,251 have been borne by the Manager out of its fund management fee. In the prior year, the total audit fee was £10,387 plus VAT of £2,077.

Notes to the Financial Statements continued

6. Taxation

(a) Analysis of taxation charge in year

	31/07/21	31/07/20
	£	£
Corporation tax	3,184,389	3,643,532
Irrecoverable income tax	—	194,011
Current tax [note 6(b)]	3,184,389	3,837,543
Deferred tax [note 6(c)]	—	—
Total taxation	<u>3,184,389</u>	<u>3,837,543</u>

(b) Factors affecting taxation charge for the year

The current tax charge excludes capital gains and losses for the reason that Authorised Unit Trusts are not subject to Corporation Tax on these items. Current tax differs from taxation assessed on net revenue before taxation as follows:

Net revenue before taxation	<u>26,610,410</u>	<u>32,176,147</u>
Net revenue before taxation multiplied by the applicable rate of Corporation tax of 20% (2020: 20%)	5,322,082	6,435,229
Effects of:		
Capitalised revenue subject to taxation	25,723	33,741
Revenue not subject to taxation	(2,163,416)	(2,825,438)
Irrecoverable income tax	—	194,011
Current tax	<u>3,184,389</u>	<u>3,837,543</u>

(c) Provision for deferred tax

There is no deferred tax provision in the current or preceding year.

Notes to the Financial Statements continued

7. Distributions

The distributions take account of revenue received on the creation of units and revenue deducted on the cancellation of units and comprise:

	31/07/21	31/07/20
	£	£
Interim distribution	12,537,026	17,170,440
Final distribution	<u>10,748,018</u>	<u>10,891,785</u>
	23,285,044	28,062,225
Add: Revenue deducted on cancellation of units	230,928	886,978
Less: Revenue received on creation of units	<u>(64,228)</u>	<u>(610,599)</u>
Distributions for the year	<u>23,451,744</u>	<u>28,338,604</u>
Interest payable and similar charges		
Bank overdraft interest	<u>44,034</u>	<u>18,742</u>
	<u>23,495,778</u>	<u>28,357,346</u>

The differences between the net revenue after taxation and the distributions for the year are as follows:

	31/07/21	31/07/20
	£	£
Net revenue after taxation for the year	23,426,021	28,338,604
Tax on capital management fee rebates	<u>25,723</u>	<u>—</u>
Distributions for the year	<u>23,451,744</u>	<u>28,338,604</u>

8. Debtors

	31/07/21	31/07/20
	£	£
Accrued revenue	2,260,990	2,422,208
Amounts receivable for creation of units	26,000	38,998
CIS tax recoverable	205,313	39,373
Management fee rebates	89,341	75,524
Sales awaiting settlement	<u>—</u>	<u>3,345,001</u>
	<u>2,581,644</u>	<u>5,921,104</u>

Notes to the Financial Statements continued

9. Net uninvested cash

	31/07/21	31/07/20
	£	£
Amounts held at futures clearing houses and brokers	3,953,080	10,195,903
Cash and bank balances	44,543,641	19,268,167
Bank overdrafts	(16,068)	(20,253)
Cash equivalents	<u>107,093,575</u>	<u>127,391,572</u>
Net uninvested cash	<u>155,574,228</u>	<u>156,835,389</u>

10. Other creditors

	31/07/21	31/07/20
	£	£
Accrued expenses	297,378	236,383
Amounts payable for cancellation of units	841,000	620,002
Corporation tax payable	2,492,389	2,267,003
Purchases awaiting settlement	—	8,168,067
	<u>3,630,767</u>	<u>11,291,455</u>

11. Contingent liabilities and outstanding commitments

There were no contingent liabilities or outstanding commitments at the balance sheet date (31 July 2020: same).

Notes to the Financial Statements continued

12. Financial Instruments and Associated Risks

The investments of a Fund in financial securities and derivatives are subject to normal market fluctuations and other risks inherent in investing in such instruments. Legal & General (Unit Trust Managers) Limited (UTM) is the Authorised Fund Manager and has responsibility for ensuring appropriate risk management processes are implemented for each Unit Trust.

The UTM Board has delegated the risk oversight function to the Fund Manager Oversight Committee (FMOC), a committee of the Legal & General Investment Management (Holdings) Limited (LGIMH) Board that meets monthly. The primary objective of the FMOC is to ensure proper oversight of the investment management activities and associated services performed by LGIM, its delegates and other Fund Managers, under the Investment Management Agreement (IMA), on behalf of UTM in its capacity as Authorised Fund Manager. The committee consists of senior members of LGIMH and members of the UTM Board. Other senior staff members are also in attendance, as required by the agenda.

Each Fund has Investment Guidelines, an Investment Objective and Investment Restrictions, against which the fund manager will operate. These are set out in Schedule 1 of the IMA between LGIM and UTM. The Schedule is maintained by each fund manager, reviewed by the LGIM Operational Risk and Compliance Teams and approved senior members of LGIMH on behalf of the UTM board. The Schedule provides the detail needed to determine the risk profile for each fund. Fund managers are not permitted to invest into any new instruments without first gaining approval from UTM.

The Investment Objective and Policy of this Fund is detailed on page 2.

(a) Market Risk arising from other price risk

Market Risk arises mainly from uncertainty about future prices. It represents the potential loss the Fund may suffer through holding market positions in the face of market movements.

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar instruments traded in the market.

The assets held by the Fund can be seen in the Portfolio Statement starting on page 9. Movements in the prices of these investments result in movements in the performance of the Fund. The Manager adheres to the investment guidelines established in the Trust Deed, the Prospectus, the COLL and the Fund's IOG, and in this way, monitors and controls the exposure to risk from any type of security, sector or issuer.

At 31 July 2021, if the price of the investments held by the Fund increased or decreased by 5%, with all other variables remaining constant, then the net assets attributable to unitholders would increase or decrease by approximately £55,295,737 (31 July 2020: £49,299,507).

Notes to the Financial Statements continued

12. Financial Instruments and Associated Risks continued

(b) Interest Rate Risk

Interest Rate Risk is the risk of movements in the value of financial instruments as a result of fluctuations in interest rates.

The Fund is exposed to interest rate risk through its holdings in debt securities and underlying collective investment schemes that pay interest distributions. The market value of debt securities and any floating rate payments from debt securities held (and interest rate swaps) may fluctuate as a result of changes in interest rates. This risk is managed by the active monitoring and adjustment of the investments held directly by this Fund and within each underlying Fund that invests in debt securities, in line with the stated investment objective and policy of the Fund.

At 31 July 2021, if interest rates on the Fund increased or decreased by 1 basis point, with all other variables remaining constant, then the net assets attributable to unitholders would increase or decrease by approximately £368,543 (31 July 2020: £420,879). This represents the Manager's best estimate of a reasonable possible shift in interest rates, having regard to historical volatility of those rates.

Notes to the Financial Statements continued

12. Financial Instruments and Associated Risks continued

(c) Foreign Currency Risk

Foreign Currency Risk is the risk of movements in the value of financial instruments as a result of fluctuations in exchange rates. This risk may be managed by the use of forward currency contracts or currency futures as necessary.

As this Fund invests in other collective investment schemes that hold investment instruments in overseas financial securities, there is currency risk in respect of the financial instruments held by those schemes.

Forward currency contracts were utilised during the current year but not the preceding year.

At 31 July 2021, if the value of Sterling increased or decreased by 1% against all currencies, with all other variables remaining constant, then the net assets attributable to unitholders would increase or decrease by approximately £1,670,486 (31 July 2020: £1,134,178).

The direct foreign currency profile of the Fund's net assets at the balance sheet date was:

31/07/21 Currency	Net foreign currency assets		Total £'000
	Monetary exposures £'000	Non-monetary exposures £'000	
Australian Dollar	(9,183)	1	(9,182)
Chinese Yuan	(18,406)	—	(18,406)
Euro	(42,113)	12,450	(29,663)
Hong Kong Dollar	180	85	265
Indian Rupee	5,438	—	5,438
Japanese Yen	6,088	(250)	5,838
Mexican Peso	3,235	—	3,235
Russian Ruble	6,586	—	6,586
South African Rand	(5,941)	9,091	3,150
South Korean Won	890	303	1,193

US Dollar	(72,479)	1,438	(71,041)

Notes to the Financial Statements continued

12. Financial Instruments and Associated Risks continued

(d) Credit Risk

Credit Risk is the risk of suffering financial loss as a result of a counterparty to a financial transaction being unable to fulfil their financial obligations as they fall due.

Bonds or other debt securities involve credit risk to the issuer which may be evidenced by the issuer's credit rating. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated securities.

The Fund's investments in bonds expose it to the default risk of the bond issuer with regards interest payments and principal repayments. Bond holdings with low credit ratings (sub-investment grade) are disclosed in Portfolio Statement on pages 8 to 11.

As this Fund invests in Collective Investment Schemes, there is credit risk in respect of the assets held by these Schemes.

This risk is managed by appraising the credit profile of financial instruments and issuers in line with the Fund's investment objective and policy.

(e) Liquidity Risk

Liquidity Risk relates to the capacity to meet liabilities as they fall due. The primary source of this risk to the Fund is the liability to Unitholders for any cancellation of units.

The Fund can also be exposed to liquidity risk through its commitments under derivative contracts, whereby additional margin payments or collateral payments may need to be posted with the counterparty or clearing house.

This risk is minimised by holding a large proportion of readily realisable assets, cash balances and via access to overdraft facilities.

(f) Derivative Risk - Sensitivity Analysis

Derivative Risk arises from uncertainty about future market movements. This risk is managed by the policies shown within Market risk.

At the balance sheet date the Fund made use of the following derivatives:

Futures (excluding Currency Futures)

Futures are used to adjust the duration and interest rate risk of the Fund, and to adjust the equities exposure of the Fund, in a cost effective manner. The effect of these instruments was to increase the exposure of the Fund to bonds and equities by £89,244,740 (31 July 2020: increase the exposure by £113,027,817), representing 7.08% of the net asset value (31 July 2020: 9.94%).

This results in an effective equity exposure at the year end of 94.82% (31 July 2020: 96.63%) of net assets, which means that the gains or losses of the Fund will be 0.9482 (31 July 2020: 0.9663) times the gains or losses if the Fund was fully invested in equities.

Notes to the Financial Statements continued

12. Financial Instruments and Associated Risks continued

(g) Fair Value

The fair value of a financial instrument is the amount for which it could be exchanged between knowledgeable, willing parties in an arm's length transaction. There is no material difference between the value of the financial assets and liabilities, as shown in the financial statements, and their fair value.

The Statement of Recommended Practice for Financial Statements of UK Authorised Funds issued by the Investment Association in May 2014 requires the classification of the Fund's financial instruments held at the year end into a 3 tiered fair value hierarchy. The 3 tiers of the hierarchy and the classification of the Fund's financial instruments as at the balance sheet date were:

31/07/21	Assets	Liabilities
Basis of Valuation	£	£
Level 1 - Quoted Prices	32,565,214	(2,014,906)
Level 2 - Observable Market Data	1,076,656,632	(1,292,205)
Level 3 - Unobservable Data	—	—
Total	1,109,221,846	(3,307,111)

31/07/20	Assets	Liabilities
Basis of Valuation	£	£
Level 1 - Quoted Prices	7,153,983	(3,974,315)
Level 2 - Observable Market Data	982,810,473	—
Level 3 - Unobservable Data	—	—
Total	989,964,456	(3,974,315)

Level 1

The unadjusted quoted price in an active market for assets or liabilities that the entity can access at the measurement date.

Level 2

Valuation techniques using observable inputs other than quoted prices within Level 1.

Level 3

Valuation techniques using unobservable inputs.

Notes to the Financial Statements continued

12. Financial Instruments and Associated Risks continued

(h) Financial Derivative Instruments and Collateral

During the year the Fund made use of 'Over the Counter' (OTC) Derivative Instruments. These types of transactions introduce Counterparty Risk, where a counterparty may fail to meet its financial commitments.

In order to reduce this risk, collateral may be held by the Fund. The counterparties to these transactions and any collateral held by the Fund at the balance sheet date is shown below:

Global exposure and collateral

Counterparty	Derivative Groups: Forward Currency Contracts	Gain/(Loss) Position
Barclays	4,757,927	105,763
BNP Paribas	12,755,888	32,936
Goldman Sachs	8,006,413	60,497
HSBC	5,842,733	78,922
JPMorgan	66,528,705	(581,530)
Merrill Lynch	36,857,205	(110,681)
NatWest	94,229,522	(153,339)
Societe Generale	2,553,998	17,751
Standard Bank	20,377,155	290,747
Total	251,909,546	(258,934)

To reduce the Fund's exposure to Counterparty Default Risk, the Fund holds or delivers cash or investment grade government bonds as collateral.

The Fund also holds exchange traded derivatives which have minimal Counterparty Risk exposure.

No collateral was held or delivered at the balance sheet date.

14. Unit classes

A list of unit classes in issue and the fund management fee on each unit class can be found on page 46. The net asset value per unit of each unit class and the number of units in each class are given in the comparative tables on pages 37 to 44. The distributions per unit class are given in the distribution tables on pages 34 and 35. All classes have the same rights on winding up.

F-Class	Accumulation
Opening Units	201,613
Units issued	3,038
Units cancelled	(1,501)
Units converted	—
Closing Units	203,150

I-Class	Distribution	Accumulation
Opening Units	2,432,910	32,901,619
Units issued	829,528	4,440,407
Units cancelled	(510,927)	(2,232,836)
Units converted	—	—
Closing Units	2,751,511	35,109,190

C-Class	Accumulation

Closing Units	283,772,020

Notes to the Financial Statements continued

15. Ultimate controlling party and related party transactions

The Manager is regarded as a related party to the Fund because it provides key management personnel services to the Fund. The ultimate controlling party of the Manager is Legal & General Group Plc. Subsidiaries of Legal & General Group Plc are also considered related parties to the Fund.

Legal & General (Unit Trust Managers) Limited acts as the principal on all the transactions of the units in the Fund. The aggregated monies received through creations or paid on cancellations are disclosed in the statement of change in net assets attributable to unitholders.

Equalisation amounts relating to creations and cancellations of units are shown within note 7. Fees received by the Authorised Fund Manager from the Fund plus any rebates paid by the Authorised Fund Manager to the Fund are shown within notes 3, 4 and 5 as applicable. Any outstanding fees, amounts outstanding on creations or cancellations of units in the Fund, or rebates receivable by the Fund from the Manager are shown within notes 8 and 10 as applicable.

At the year end, the Manager and its associates held 0.00% (12.92% as at 31 July 2020) of the Fund's units in issue.

16. Post balance sheet market movements

As at the close of business on the balance sheet date the Net Asset Value per I-Class accumulation unit was 72.93p. The Net Asset Value per I-Class accumulation unit for the Fund as at 3pm on 8 November 2021 was 74.61p. This represents an increase of 2.30% from the year end value.

Distribution Tables

Distribution Tables for the year ended 31 July 2021

Group 1: units purchased prior to a distribution period.

Group 2: units purchased during a distribution period.

Equalisation is the average amount of revenue included in the purchase price of all Group 2 units and is refunded to the holders of these units as a return of capital. As capital it is not liable to Income Tax but must be deducted from the cost of units for Capital Gains Tax purposes.

Fund Information

The Comparative Tables on pages 37 to 44 give the performance of each active unit class in the Fund.

The 'Return after charges' disclosed in the Comparative Tables is calculated as the return after operating charges per unit divided by the opening net asset value per unit. It differs from the Fund's performance disclosed in the Manager's report, which is calculated based on the latest published price.

Portfolio transaction costs are incurred when investments are bought or sold by a fund in order to achieve the investment objective. These transaction costs affect an investor in different ways depending on whether they are joining, leaving or continuing with their investment in the Fund.

Direct transaction costs include broker commission and taxes. Broker commission includes the fee paid to a broker to execute the trades and research costs.

In addition, there are indirect portfolio transaction costs arising from the 'dealing spread' – the difference between the buying and selling prices of underlying investments in the portfolio. Unlike shares whereby broker commissions and stamp duty are paid by a fund on each transaction, other types of investments (such as bonds, money instruments, derivatives, collective investment schemes) do not have separately identifiable transaction costs; these costs form part of the dealing spread. Dealing spreads vary considerably depending on the transaction value and money market sentiment.

¹ F-Class Distribution units ceased to exist on 12 December 2019. Value shown is the closing net asset value at this date.

[†] Operating charges, otherwise known as the OCF is the ratio of the Fund's total disclosable costs (excluding overdraft interest) to the average net assets of the Fund. The OCF is intended to provide a reliable figure which gives the most accurate measure of what it costs to invest in a fund and is calculated based on the last period's figures. Included within the OCF are synthetic costs which include the OCF of the underlying funds weighted on the basis of their investment proportion.

Past performance is not a guide to future performance.

The price of units and any income from them may go down as well as up.

Exchange rate changes may cause the value of any overseas investments to rise or fall.

† Operating charges, otherwise known as the OCF is the ratio of the Fund's total disclosable costs (excluding overdraft interest) to the average net assets of the Fund. The OCF is intended to provide a reliable figure which gives the most accurate measure of what it costs to invest in a fund and is calculated based on the last period's figures. Included within the OCF are synthetic costs which include the OCF of the underlying funds weighted on the basis of their investment proportion.

Past performance is not a guide to future performance.

The price of units and any income from them may go down as well as up.

Exchange rate changes may cause the value of any overseas investments to rise or fall.

Risk and Reward Profile (unaudited)

- The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is not guaranteed to remain the same and may change over time. It is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table above shows the Fund's ranking on the Risk and Reward Indicator.
- The Fund is in category four because the mix of different asset types in which the Fund invests has a balancing effect on the rate at which the Fund share price moves up and down. This type of fund is generally considered to be higher risk than one investing only in bonds and lower risk than one investing only in company shares.
- Even a fund in the lowest category is not a risk free investment.

Constitution

Launch date:	30 June 2014
Period end dates for distributions:	31 January, 31 July
Distribution dates:	31 March, 30 September
Minimum initial lump sum investment:	I-Class £1,000,000 C-Class* £100,000,000 D-Class £100 L-Class** £100,000
Valuation point:	3pm
Fund management fees:	F-Class*** Annual 0.54% I-Class Annual 0.45% C-Class* Annual 0.30% D-Class Annual 0.94% L-Class** Annual 0.05%
Initial charges:	Nil for all existing unit classes

* Class C units are available to certain eligible investors who meet the criteria for investment in such units as outlined in the share class policy of the Manager, which is available to investors in the C Class upon request. Where investors in the C Class no longer continue to meet the criteria for investment in such units, further investment in such units may not be permitted.

** Class L units are only available to other Legal & General funds and/or companies which have entered into an agreement with the Manager or an affiliate of the Manager.

*** Class F units are closed to new subscriptions.

Pricing and Dealing

The prices are published on the internet at www.legalandgeneral.com/investments/funds/prices-and-reports/daily-fund-prices immediately after they become available.

Dealing in units takes place on a forward pricing basis, from 8:30am to 6:00pm, Monday to Friday.

Buying and Selling Units

Units may be bought on any business day from the Manager or through a financial adviser by completing an application form or on the internet at www.legalandgeneral.com. Units may normally be sold back to the Manager on any business day at the bid price calculated at the following valuation point.

ISA Status

This Fund may be held within this tax advantaged savings arrangement. The favourable tax treatment of ISAs may not be maintained. For full written information, please contact your usual financial adviser or ring 0370 050 0955.

Call charges will vary. We may record and monitor calls.

Remuneration Disclosure

In accordance with the Undertakings for collective investment in transferable securities (UCITs) Directive, often referred to as the UCITs V Directive, the Legal & General Mixed Investment 20-60% Fund, as a UCITs Scheme, is required to disclose the aggregate remuneration paid by the UCITs Manager and by the UCITs Scheme to Identified Staff, together with the number of beneficiaries, and, where relevant, performance fees paid by the UCITs Scheme. The aggregate amount of remuneration must be broken down by category of employees or other staff members and be split into fixed and variable remuneration.

The following provides information on the remuneration of persons whose professional activities have a material impact on the management company and the funds we manage as at 31 December 2020:

Controlled Functions

Headcount	Fixed Remuneration (£,000)	Variable Remuneration (£,000)	Remuneration related to this Fund (Pro-rated) (£'000)
89	17,974	26,604	829

Material Risk Takers

Headcount	Fixed Remuneration (£,000)	Variable Remuneration (£,000)	Remuneration related to this Fund (Pro-rated) (£'000)
37	4,975	3,865	188

Controlled Functions

During 2020, Legal & General Unit Trust Managers Limited (UTM) engaged the services of three employees of Legal & General Investment Management (Holdings) Limited (LGIMH), plus a further one employee of Legal & General Resources (LGR) to act as Directors. In addition, there were three non-executive Directors. UTM also engaged the services of a further 74 LGIMH employees and a further 10 L&G Resources (LGR) employees to act in a variety of Controlled Functions, including Chief Compliance Officer, Money Laundering Reporting Officer, Client Asset Oversight, Systems and Controls Functions, Significant Management Functions and Customer Functions. These employees were also engaged by other companies in the L&G Group. The aggregate remuneration received by these individuals, for all their services across the L&G Group, is disclosed in the table above. We have prorated the remuneration figures by the Net Asset Value of the UCITS Funds as a percentage of the total assets under management of UTM.

Material Risk Takers

As at 31 December 2020, UTM engaged the services of Legal & General Investment Management's Asset Allocation Team, which consists of 37 investment professionals located in our London Office. The team includes a variety of Fund Managers, Analysts and Support Staff, with the Fund Managers empowered to take discretionary investment management decisions on behalf of the Fund. The team is also engaged in managing other Legal & General UTM Funds/Schemes and is also engaged by other companies in the L&G Group. The aggregate remuneration received by the members of the team, for all their services across the L&G Group, is disclosed in the table above. We have prorated the remuneration figures by the Net Asset Value of the UCITS Funds as a percentage of the total assets under management of the Asset Allocation team.

Assessment of Value

We have now published Assessment of Value reports for our funds on legalandgeneral.com and lgim.com.

Significant Changes

Changes to Pricing Methodology

We have recently reviewed the way we calculate prices for your funds. Following the review, we have decided to adopt a standardised way of pricing funds across most of our Unit Trust fund range.

Previously we used four different methods for calculating fund prices. With effect from 1 December 2020, we have adopted a 'single swing pricing' method.

The move to a standardised pricing method will:

1. Make our pricing simpler;
2. Make it easier for you to compare prices across our funds; and
3. Make it easier for you to compare our funds to funds offered by our competitors.

This new pricing method means that on each day all our customers receive the same price regardless of whether they are buying or selling their investments.

If you'd like to know more about this change and what it means for you, then you can visit our website at legalandgeneral.com/swing-pricing. If you have any questions about the change or require further information, please contact us Monday to Friday between 9.00am and 5:00pm on 0370 050 0955 or email us at investments@landg.com.

Call charges will vary. We may record and monitor calls.

Change of Depositary

The depositary of the Fund has changed with effect from 30 October 2021. The depositary is the entity we are required by regulation to appoint to carry out certain services in relation to the Fund, namely, safekeeping of the assets, cash monitoring and regulatory oversight.

As you may know, the depositary of the Fund was Northern Trust Global Services SE, UK branch ("NTGS-UK"). NTGS-UK is the UK branch of Northern Trust Global Services SE, which is a bank established in Luxembourg, and was permitted to provide trustee and depositary services into the UK by virtue of having extra permissions in the UK.

As a consequence of the UK's decision to leave the European Union, however, the UK financial services regulator which regulates NTGS-UK, the Financial Conduct Authority ("FCA"), has provided that UK branches of EU banks are no longer able to provide trustee and depositary services into the UK and those services have to be provided from a UK incorporated company. The FCA has provided a grace period for firms to implement the new rules which came into force on 1 January 2021.

In order to comply with the new rules, Northern Trust has established Northern Trust Investor Services Limited ("NTISL") to be the new trustee and depositary. NTISL is a company established in England and Wales and is authorised by the FCA to be a trustee and depositary. NTISL will provide the same services as NTGS-UK with the same processes and procedures in place. The change of depositary took place on 30 October 2021 and we have amended the Prospectus of the Fund to reflect the details of NTISL as from that date.
